Surfing Multiverse Increasing Happiness Universe:

Surfing the Multiverse J Sands Loch, 2015-12-17 Two years ago my life experienced a number of big changes including the end of my marriage a career change and moving to a new state Almost immediately I began noticing strange coincidences occurring in my life I found myself in situations eerily similar to situations I would have been in had I remained married and or not moved As the number of coincidences increased I began to make note of them I began to see patterns and connections between events My engineering mind begin trying to explain what I was experiencing I began seeing connections between events I was experiencing and events I would have experienced had my life not changed so dramatically When faced with a choice I felt a strong pull to choose a path that would be aligned with my prior married life I had to continually exercise free will to remain on the new path I had chosen Even now two years later it still requires a continuous exercise of free will to avoid returning to the situation I was in for over twenty years I decided then to understand all of the forces involved in determining the path of my life I knew I had exercised free will to change a large part of my life What I didn t understand was the force that was making this change so difficult What was the source of the force keeping me locked close to my prior life And how could I harness this force to unleash myself and even steer my life in the direction of my choosing Well long story short I figured it out I didn t figure it out in the sense that I could explain how it works from first principles But I did figure out a working model of the multiverse that is simple and can be used by anyone to better their life in every possible way In reading this book I hope you get the same sense of discovery as I did in writing it Happy Surfing
