Bauduin, Victoria Ferentinou, Daniel Zamani, 2017-10-16 This volume examines the relationship between occultism and Surrealism specifically exploring the reception and appropriation of occult thought motifs tropes and techniques by Surrealist artists and writers in Europe and the Americas from the 1920s through the 1960s Its central focus is the specific use of occultism as a site of political and social resistance ideological contestation subversion and revolution Additional focus is placed on the ways occultism was implicated in Surrealist discourses on identity gender sexuality utopianism and radicalism

Alchemy in Contemporary Art Urszula Szulakowska, 2017-07-05 *Alchemy in Contemporary Art* analyzes the manner in which twentieth century artists beginning with French Surrealists of the 1920s have appropriated concepts and imagery from the western alchemical tradition This study examines artistic production from c 1920 to the present with an emphasis on the 1970s to 2000 discussing familiar names such as Andre Breton Salvador Dali Yves Klein Joseph Beuys and Anselm Kiefer as well as many little known artists of the later twentieth century It provides a critical overview of the alchemical tradition in twentieth century art and of the use of occultist imagery as a code for political discourse and polemical engagement The study is the first to examine the influence of alchemy and the Surrealist tradition on Australian as well as on Eastern European and Mexican art In addition the text considers the manner in which women artists such as Leonora Carrington Remedios Varo and Rebecca Horn have critically revised the traditional sexist imagery of alchemy and occultism for their own feminist purposes

Surrealist Sorcery Will Atkin, 2023-08-10 Often regarded as an artistic movement of interwar Paris Surrealism comprised an international community of artists writers and intellectuals who have aspired to change the conditions of life itself over the course of the past century Consisting of a wide range of dedicated case studies from the 1920s to the 1970s this book highlights the international dimensions of the Surrealist Movement and the radical chains of thought that linked its followers across the globe from France to Romania and from Canada to the former Czechoslovakia From very early on the surrealists approached magic as a means of bypassing discrediting and combatting rationalism capitalism and other institutionalized systems and values that they saw to be constraining influences upon modern life Surrealist Sorcery maps out how this interest in magic developed into a major area of surrealist research that led not only to theoretical but also practical explorations of the subject Taking an international perspective Atkin surveys this important quality of the movement and how it s remained an important element in the surrealist project and its ongoing legacy

Surrealism Flaminio Gualdoni, 2008 Surrealism is an art movement dedicated to expressing the imagination as revealed in dreams free of the conscious control of reason and convention Surrealism inherited its anti rationalist sensibility from Dada but was lighter in spirit than that movement Like Dada it was shaped by emerging theories on our perception of reality the most obvious influence being Freud

s model of the subconscious Founded in Paris in 1924 by Andr Breton with his Manifesto of Surrealism it was above all a revolutionary movement and its principal aim was to resolve the previously contradictory conditions of dream and reality into an absolute reality a super reality The Surrealist circle was made up of many of the great artists of the 20th century including Jean Arp Max Ernst Giorgio de Chirico Man Ray Joan Mir Ren Magritte Yves Tanguy Salvador Dal

The Boom Femenino in Mexico Reading Contemporary Women TM s Writing is a collection of essays that focuses on literary production by women in Mexico over the last three decades In its exploration of the boom femenino phenomenon the book traces the history of the earlier boom in Latin American culture and investigates the implications of the use of the same term in the context of contemporary women TM s writing from Mexico In this way it engages critically with the cultural historical and literary significance of the term illuminating the concept for a wide range of readers It is clear that the entry of so many women writers into an arena traditionally reserved for men has prompted discussion around concepts such as women TM s writing TM and the very definition of literature TM itself Many of the contributors grapple with the theoretical tensions that such debates provoke offering an important opportunity to think critically about the texts produced during this period and the ways in which they have impacted on the Mexican and international cultural spheres The project is comprehensive in its scope and for the first time brings together scholars from Mexico the U S and Europe in a transnational forum The book posits that despite certain aesthetic and thematic commonalities the increased output by women writers in Mexico cannot be appraised as a unified literary movement Instead it embraces a wide range of different generic forms and the subjects under study in the essays in the book include the best selling work of ngeles Mastretta Elena Poniatowska and Laura Esquivel as well as the social and political preoccupations of journalists Rosanna Reguillo and Cristina Pacheco Contributors offer readings of the aesthetic visions of writers as diverse as Carmen Boullosa Ana Garc a Bergua and Eve Gil while other essays examine the nuances of contemporary gender identity in the work of Ana Clavel Sabina Berman Brianda Domecq and Mar a Luisa Puga There are essays devoted to poetry by indigenous Mayan women and an analysis of the complex place of poetry within the broader framework of literary production The problems that emerge as a result of literary cataloguing based on gender politics are also considered at length in a number of essays that take a panoramic view of literary production over the period Various critical approaches are employed throughout and the collection as a whole demonstrates that academic interest in Mexican women TM s writing of the boom

femenio is thriving Above all the essays here provide a space in which the location of women within prevailing cultural paradigms in Mexico and their role in the mapping of power in evolving textual canons may be interrogated It is clear from the collection that interest in such issues is still alive and that the debate is far from over *Steve Gouthro* Steve Gouthro, Celia Rabinovitch, Chris Reid, Winnipeg Art Gallery, 2004 **Thresholds** , 2002 *Surreal Things* Victoria and Albert Museum, 2007-05-15 *Surreal Things* is the first book to examine in depth the influence of Surrealism on the wider fields of design and the decorative arts and its sometimes uneasy relationship with the commercial world In Parts I and II the work of artists and designers such as Hans Jean Arp Alexander Calder Max Ernst Rene Magritte Joan Miro Meret Oppenheim Man Ray and Elsa Schiaparelli provides the means to explore Surrealism s relationship with the material world while 45 star objects are given particular consideration in Part III The range of objects covered in this book spans painting sculpture works on paper jewellery ceramics textiles furniture fashion film and photography
