Surrender Of Sovereignty

Recent Theories of Sovereignty Xujing Chen,1929 **Sovereignty, Migration and the Law** Patricia Rushton,2024-12-31 This book examines how states justify the creation of physical policy and legislative barriers of entry for migrants by drawing on a concept of sovereignty. The movement of people across the world in search of refuge from persecution war and poverty is accelerating. And as states confronted with this movement create physical policy and legislative barriers to entry they justify this exclusion by drawing on concepts of sovereignty. This book interrogates that justification in an historical and theoretical context using the case study of Australian law and policy since 1900 as well as instances from other Western countries that have routinely copied from Australia. But just as Australian migration policies are being replicated in the US, Britain and Europe so this book argues is their employment of an anachronistic concept of sovereignty one that is reasserted precisely because of its waning power in the face of globalisation. This book will be an important resource for law and political science scholars, researchers and students in the fields of migration and refugee law and policy as well as to professional policy makers, government institutions, lawyers and international agencies with a particular focus on those fields

Notes on Sovereignty from the Standpoint of the State and of the World Robert

Lansing,1921 Proceedings of the Massachusetts Historical Society Massachusetts Historical Society,1907 Notes on Sovereignty from the Standpoint of the State and of the World Carnegie Endowment for International Peace (Washington, City of). - Division of International Law, Robert Lansing, 1921 The Art of Surrender Robin Wagner-Pacifici, 2005-10-03

Explores the ritual concessions as acts of warfare performances of submission demonstrations of power and representations of shifting unstable worlds. The author considers the limits of sovereignty at conflict's end showing how the ways we concede loss can be as important as the ways we claim victory

Creating a More Perfect Slaveholders' Union Peter

Radan,2023-10-27 In *Texas v White* 1869 the Supreme Court ruled that the unilateral secession of a state from the Union was unconstitutional because the Constitution created an indestructible Union composed of indestructible States. The Court ruled there was no place for reconsideration or revocation except through revolution or through consent of the States. In his iconoclastic work Peter Radan demonstrates why the Court's ruling was wrong and why on the basis of American constitutional law in 1860-1861 the unilateral secessions of the Confederate states were lawful on the grounds that the United States was forged as a slaveholders' Union. *Creating a More Perfect Slaveholders' Union* addresses two constitutional issues: first, whether the states in 1860 had a right to secede from the Union; and second, what significance slavery had in defining the constitutional Union. These two matters came together when the states seceded on the grounds that the system of government they had agreed to, namely a system of human enslavement, had been violated by the incoming Republican administration. The legitimacy of this secession was anchored as Radan demonstrates in the compact theory of the Constitution which held that because the Constitution was a compact between the member states of the Union, breaches of its

fundamental provisions gave affected states the right to unilaterally secede from the Union In so doing the Confederate states sought to preserve and protect their peculiar institution by forming a more perfect slaveholders Union Creating a More Perfect Slaveholders Union stands as the first and only systematic analysis of the legal arguments mounted for and against secession in 1860 1861 and reshapes how we understand the Civil War and consequently the history of the United States more generally

The Law and Custom of the Constitution Sir William Reynell Anson,1897 **Legal Aspects of Economic Integration in Africa** Richard Frimpong

Oppong,2011-07-07 Richard Frimpong Oppong challenges the view that effective economic integration in Africa is hindered by purely socio economic political and infrastructural problems Inspired by the comparative experiences of other regional economic communities and imbued with insights from constitutional public and private international law he argues that even if the socio economic political and infrastructural challenges were to disappear the state of existing laws would hinder any progress Using a relational framework as the fulcrum of analyses he demonstrates that in Africa's economic integration processes community state inter state and inter community legal relations have neither been carefully thought through nor situated on a solid legal framework and that attempts made to provide legal framework have been incomplete and sometimes grounded on questionable assumptions To overcome these problems and aid the economic integration agenda that is essential for Africa's long term economic growth and development the author proposes radical reforms to community and national laws
