Surviving Desires Making And Selling Native Jewellery In The American Southwest:

Surviving Desires Henrietta Lidchi, 2015 Author Henrietta Lidchi focuses on jewellery in the cultural economy of the Southwest exploring jewellery making as a decorative art form in constant transition. She describes the jewellery as subject to a number of desires controlled at different times by government agencies, individual entrepreneurs, traders, curators and Native American communities. Lidchi explores the jewellery as craft, material culture, commodity and adornment. Considering the impact of tourism she discusses fakes in the market and the artists' desires to codify traditional styles, explaining how that can affect stylistic development and value. *Surviving Desires* suggests the complexity and reinvention innate to Native American jewellery as a commercial craft.

[The Routledge Companion to Art and Challenges to Empire](#) Emily C. Burns, Alice M. Rudy Price, 2025-11-28 This companion analyzes interactions between the arts and global imperial relationships from around 1800 through the twentieth century. By excavating layers and identifying legacies the essays reveal inherent fractures in colonial perspectives. Tremendous multi directional imperialisms and inter imperial dialogues characterize the period as do protests and anticolonial activity. How does the materializing of empire expose its logics of cultural superiority and its faultlines and instabilities? The essays in this volume explore how the arts, visual culture and material culture however subtly tested empire's hegemonic limits whether by exposing fragilities, unmasking ruptures or through intentional subversions. While this volume's chapters at times trace evidence of strident anticolonial voices most consistently they show visual, textual, material and performative practices pointing to the instability of imperial ambition and activity. The theme of geological stratification shapes the essay structure as authors consider the modes of artistic interaction in the context of imperialism as well as the legacies of empire. The book will be of interest to graduate students, researchers and professors and may be used in classes focused on art history, imperialism and colonialism.

[Craft](#) Glenn Adamson, 2021-01-19 New York Times Book Review Editors' Choice A groundbreaking and endlessly surprising history of how artisans created America from the nation's origins to the present day. At the center of the United States' economic and social development according to conventional wisdom are industry and technology while craftspeople and handmade objects are relegated to a bygone past. Renowned historian Glenn Adamson turns that narrative on its head in this innovative account revealing makers' central role in shaping America's identity. Examine any phase of the nation's struggle to define itself and artisans are there from the silversmith Paul Revere and the revolutionary carpenters and blacksmiths who hurled tea into Boston Harbor to today's maker movement. From Mother Jones to Rosie the Riveter, from Betsy Ross to Rosa Parks, from suffrage banners to the AIDS Quilt Adamson shows that craft has long been implicated in debates around equality, education and class. Artisanship has often been a site of resistance for oppressed people such as enslaved African Americans whose skilled labor might confer hard-won agency under bondage or the Native American makers who adapted traditional arts into statements of modernity. Theirs are among the array of memorable portraits of Americans both celebrated and unfamiliar in
