Sustainable Food Systems Building A New Paradigm Earthscan Food And Agriculture:

Sustainable Food Systems Terry Marsden,Adrian Morley,2014-01-21 In response to the challenges of a growing population and food security there is an urgent need to construct a new agri food sustainability paradigm This book brings together an integrated range of key social science insights exploring the contributions and interventions necessary to build this framework Building on over ten years of ESRC funded theoretical and empirical research centered at BRASS it focuses upon the key social economic and political drivers for creating a more sustainable food system Themes include regulation and governance sustainable supply chains public procurement sustainable spatial strategies associated with rural restructuring and re calibrated urbanised food systems minimising bio security risk and animal welfare burdens The book critically explores the linkages between social science research and the evolving food security problems facing the world at a critical juncture in the debates associated with not only food quality but also its provenance vulnerability and the inherent unsustainability of current systems of production and consumption Each chapter examines how the links between research practice and policy can begin to contribute to more sustainable resilient and justly distributive food systems which would be better equipped to feed the world by 2050

Agrourbanism Enrico Gottero,2018-08-03 This book provides a much needed overview of the agrourbanism topic in the context of territorial studies It carefully looks at rural urban periurban farming in both professional and unprofessional capacities as one of the main sustainable forms of land use and management This cutting edge text explores the various forms of agricultural and urban planning as well as the main innovations that the agro urban approach entails in terms of governance spatial dimensions and functions Agrourbanism provides a breadth of information and serves as a practical study of concerns facing policy and decision makers planners and landscape managers as well as farmers managers of protected areas local authorities and local action groups As such this book is suitable as a course accompaniment to provide an overview of the complexity of agro urban issues

Rural-Urban Linkages for Sustainable Development Armin Kratzer,Jutta Kister,2020-09-23 This book critically examines different forms of urban rural links for sustainable development in different countries As intertwined processes of globalization digitalization environmental challenges and the search for sustainable development continue rural and urban areas around the world become increasingly interconnected and interdependent This book contributes to understanding the role of this growing interconnectedness from an economic geographical perspective It does so by theoretically and empirically addressing the various existing linkages such as food networks value chains and regional governance at local regional national and international levels In doing so contributions extend and contrast existing approaches dealing with urban and rural areas separately by considering the interplay between these two as well as their consequences for sustainability transition pathways This edited volume adds to the academic and policy debate by bringing together a variety of concepts and themes in order to shift the research and policy agenda away from simple dichotomy to different notions of rural urban linkages

Offering multidisciplinary insights into rural urban linkages the book will be of interest to decision makers practitioners and researchers in the fields of economic geography regional planning food studies and economics

Blending Approaches

Towards Sustainability Focus André Cavalcante da Silva Batalhão,Pardeep Singh,2025-08-22 In an era defined by environmental challenges and the urgent need for sustainable practices this book emerges as a groundbreaking resource for public and private organizations practitioners users of environmental services and professionals in the fields of environmental sciences engineering sciences and business sciences This thought provoking book delves into the intricate realm of sustainability offering profound insights theoretical frameworks and practical solutions that can be applied across diverse sectors and systems worldwide Purpose and the Need for a New Resource Authored with a visionary perspective this book aims to catalyze change and inspire action in the face of pressing global challenges The urgency of addressing energy transition waste management sustainable supply chain and circular economy has never been more evident As we navigate a world grappling with climate change resource depletion and ecological degradation there is a critical need for a comprehensive and up to date resource that provides both theoretical foundations and technical guidance on sustainable practices This book fills a crucial gap in the literature by addressing these pressing concerns and equipping readers with the knowledge and tools necessary to foster a sustainable future By amalgamating insights from environmental engineering and business sciences Sustainable Futures offers a multidisciplinary approach presenting a holistic understanding of sustainability and its interconnectedness with various sectors and systems Solving Problems for Readers The book illuminates the theoretical underpinnings of sustainability while equipping readers with tangible mechanisms for transformative action By bridging the gap between theory and practice this book empowers practitioners and professionals alike to implement sustainable strategies and initiatives within their organizations Moreover this book recognizes the need for context specific approaches acknowledging the diverse range of systems and sectors around the world

Services, Experiences and Innovation

Ada Scupola,Lars Fuglsang,2018-11-30 Whilst innovation has traditionally focused on manufacturing recently research surrounding service innovation has been flourishing Furthermore as consumers become ever more sophisticated and look for experiences a research field investigating this topic has also emerged This book aims to develop an integrated approach to the field of experience and services through innovation by showing that it is necessary to take several factors into account As such it makes a substantial and compelling contribution to the interdependencies between innovation services and experience research

Halal Matters

Florence Bergeaud-Blackler,Johan Fischer,John Lever,2015-07-16 In today s globalized world halal meaning permissible or lawful is about more than food Politics power and ethics all play a role in the halal industry in setting new standards for production trade consumption and regulation The question of how modern halal markets are constituted is increasingly important and complex Written from a unique interdisciplinary global perspective this book demonstrates that as the market for halal products and services is expanding

and standardizing it is also fraught with political social and economic contestation and difference The discussion is illustrated by rich ethnographic case studies from a range of contexts and consideration is given to both Muslim majority and minority societies Halal Matters will be of interest to students and scholars working across the humanities and social sciences including anthropology sociology and religious studies *The Least Developed Countries* United Nations Conference on Trade and Development. Secretariat,2007 The Least Developed Countries LDCs are a group of 50 countries identified by the UN as being least developed in terms of low gross national income GNI per capita high levels of extreme poverty based on indicators for nutrition child mortality rates school enrolment and adult literacy levels and a high degree of economic vulnerability The 2007 edition of the annual report focuses on national and international policies that promote progress in knowledge industries technological learning and innovation as a catalytic input to the development of productive capacities in the LDCs It focuses on five areas mechanisms and policies to enhance technology transfers to these countries through international trade foreign direct investment and licensing the role of science technology and innovation STI issues are treated particularly in poverty reduction strategy papers PRSPs and their integration into development strategies intellectual property rights and related incentive systems the loss of skilled human resources through emigration and ways in which foreign aid can be used to promote technological learning and innovation capacity in the LDCs
