Introduced to the unique stresses and the strange duality of life in Bomber Command, William Meyer is caught between two worlds: the terrifying nights in the skies over Germany and normal life off duty. And always at the back of his mind is the insistent thought of what tomorrow night might bring. Luella Langevad tells the remarkable tale of how she traced William Meyer's time in the RAF and how his startling secret was discovered. Follow her journey as she describes the unexpected results of this search in present-day Germany and the shock as a last poignant link to the past is discovered there. **Astronomy for All Ages** Philip Harrington, Edward Pascuzzi, 2023-09-21 Kids and adults can explore outer space from their own backyards with this handy book of unusual and engaging activities.
