The Lost Secrets Of Maya Technology:

The Lost Secrets of Maya Technology James A. O'Kon, 2012 The Maya have been an enigma since their discovery in the mid 19th century Maya science developed an elegant mathematic system an incredibly accurate astronomy and one of the world's five original written languages This technology was more advanced than similar European technology by more than a thousand years In this book you'll see how James O'Kon a professional engineer synergistically applied field exploration research forensic engineering and 3D virtual reconstruction of Maya projects to discover lost Maya technological achievements These lost principles of technology enabled Maya engineers to construct grand cities that towered above the rainforest water systems with underground reservoirs for water storage miles of all weather paved roads tracking through the jungle and the longest bridge in the ancient world Maya engineers developed structural mechanics for multi story buildings that were not exceeded in height until the first skyscraper built in Chicago in 1885 invented the blast furnace 2000 years before it was patented in England and developed the vulcanization of rubber more than 2600 years before Charles Goodyear Discover a host of unknown wonders in *The Lost Secrets of Maya Technology* [The Hidden Codex](#) James O'Kon, 2016-08-28 Archaeoengineer Josh Stone is challenged by the CIA to interpret ancient Maya hieroglyphics that reveal clues to the location of a book hidden by 8th century Maya scientists The book contains the secret of a horrible weapon Josh is competing with extreme terrorists who are driven by lust to seize the weapon for world domination Using digital technology to uncover clues in pursuit of the ancient artifact Dr Stone journeys from London and Madrid and to the rain forests of Mexico in a journey punctuated by terrorist attacks intervention by Maya warriors and encounters with deadly wild river whirlpools Jim O'Kon has created an unforgettable portrait of ancient Maya and modern technology a celebration of a remarkable achievements and a chronicle of an extraordinary adventure in time and space bringing compelling historical events to life

Ancient High Tech Frank Joseph, 2020-08-04 A detailed look into ancient advanced technology science and medicine some of which has yet to be reproduced today Explores countless examples of ancient high tech including robotics artificial intelligence aircraft solar powered cannons high speed drills illuminated underground temples massive refrigerators and subterranean cities Examines evidence of advanced medicine in ancient times Includes examples from ancient Egypt China Greece Babylon Siberia the Americas and India The first self igniting match was invented in 1805 by Jean Chancel a French chemist Yet in Babylon 3600 years before identical sulfur matches were in common use On the Panchavarnaswamy Temple in India built millennia ago there is a detailed carving of a man on a bicycle yet the bicycle wasn't invented in the modern world until 1817 These inventions are only two examples of technology lost in the Dark Ages Exploring the sophisticated tech achieved by ancient civilizations hundreds and thousands of years ago Frank Joseph examines evidence of robotics and other forms of artificial intelligence manned flight such as hot air balloons and gliders and military science including flamethrowers biological warfare poison gas and solar powered cannons He reveals how ancient construction

engineers excavated subterranean cities turned stone walls into glass lifted 100 ton blocks of granite illuminated underground temples and pyramids and stored their food in massive refrigerators Examples explored in the book include the first known alarm clock invented by Plato in 4th century BC Greece 600 year old Aztec whistles that reproduce animal sounds and human voices with uncanny accuracy Stone Age jewelry from Siberia worked by a high speed drill sex robots in ancient Troy Greece and China ancient Egyptian aircraft and India's iron pillar exposed to sixteen hundred years of monsoons but still standing rust free The author also explores evidence of advanced medicine in ancient times particularly in Egypt and China from brain surgery optometry and prosthetics to dentistry magnet therapy and cancer cures By examining the achievements of our ancient ancestors we can not only reverse engineer their inventions but also learn from their civilizations mistakes enabling us to avoid more dark ages Imagine how scientifically advanced humanity would be if our early achievements had escaped destruction and been allowed to develop

Structural Analysis of Historical Constructions Rafael Aguilar, Daniel Torrealva, Susana Moreira, Miguel A. Pando, Luis F. Ramos, 2018-08-18 This volume contains the proceedings of the 11th International Conference on Structural Analysis of Historical Constructions SAHC that was held in Cusco Peru in 2018 It disseminates recent advances in the areas related to the structural analysis of historical and archaeological constructions The challenges faced in this field show that accuracy and robustness of results rely heavily on an interdisciplinary approach where different areas of expertise from managers practitioners and scientists work together Bearing this in mind SAHC 2018 stimulated discussion on the new

knowledge developed in the different disciplines involved in analysis conservation retrofit and management of existing constructions This book is organized according to the following topics assessment and intervention of archaeological heritage history of construction and building technology advances in inspection and NDT innovations in field and laboratory testing applied to historical construction and heritage new technologies and techniques risk and vulnerability assessments of heritage for multiple types of hazards repair strengthening and retrofit of historical structures numerical modeling and structural analysis structural health monitoring durability and sustainability management and conservation strategies for heritage structures and interdisciplinary projects and case studies This volume holds particular interest for all the community interested in the challenging task of preserving existing constructions enable great opportunities and also uncover new challenges in the field of structural analysis of historical and archeological constructions *Make, Think, Imagine* John Browne, 2019-08-28 Today's unprecedented pace of change leaves many people wondering what new technologies are doing to our lives Has social media robbed us of our privacy and fed us with false information Are the decisions about our health security and finances made by computer programs inexplicable and biased Will these algorithms become so complex that we can no longer control them Are robots going to take our jobs Can we provide housing for our ever growing urban populations And has our demand for energy driven the Earth's climate to the edge of catastrophe John Browne argues that we need not and must not put the brakes on technological advance Civilization is founded on engineering innovation all progress stems from the human urge to make things and to shape the world around us resulting in greater freedom health and wealth for all Drawing on history his own experiences and conversations with many of today's great innovators he uncovers the basis for all progress and its consequences both good and bad He argues compellingly that the same spark that triggers each innovation can be used to counter its negative consequences *Make Think Imagine* provides an eloquent blueprint for how we can keep moving towards a brighter future [The Cover Story Index, 1992-1994 Supplement](#) Robert Skapura, 1994 **Latin America** Juan Manuel Pérez, 2004 This is a general bibliography on Latin America covering a wide variety of subjects from pre Columbian civilizations to Columbus to Castro to the foreign debt to pollution ect This work will not only be of use to the general casual reader on Latin America but also to the more specialized researcher The book contains over 800 topics with over 8 000 titles identified **Myths of Pre-Columbian America** Anita Dalal, 2001 An exploration of ancient Pre Columbian civilization through native mythology and folklore **Discovery**, 1930 [Bowker's Complete Video Directory 2001](#), 2001 **International Books in Print**, 1990 **Lost Science and Technology of the Mayan Civilization** NORAH ROMNEY, The Mayan civilization is one of the most fascinating cultures of all time They flourished in Mesoamerica from around 300 BC to 900 AD and their cities were more complex than any others at the time The Maya built roads developed an accurate measurement system for distances and built enormous stone temples that served as centers of worship astronomy and astrology They also had a well developed written language which they used to record their history

and communicate important messages This post will explore some of their most significant discoveries that have shaped our world today The Mayan culture flourished in the Mesoamerican region from around 300 BC The society was known for its unique and advanced knowledge of architecture astronomy calendar making and mathematics The Mayans were one of the first civilizations in the Americas to develop a written language and they had an extensive knowledge of astronomy which they used to predict eclipses Mayans lived in Mexico and Central America especially on the Yucatan Peninsula where they built sophisticated cities with pyramids and temples made of stone such as Chich n Itz or Uxmal They also built many buildings with flat roofs named patios where people would come together to worship their gods while they watched dances performed by priests dressed in colorful costumes made from jaguar skins The Maya had a well developed written language The Mayan writing system was developed before the invention of the wheel and is one of the oldest in existence It was first used to record history astronomy and astrology but later became a way for people to communicate with each other The Mayans turned out to be better mathematicians than we thought they were Their calendar could easily track lunar cycles solstices and equinoxes without error it also predicted eclipses with great accuracy
