**The Making of the Medieval Middle East** Jack Tannous,2018-12-04 A bold new religious history of the late antique and medieval Middle East that places ordinary Christians at the center of the story In the second half of the first millennium CE the Christian Middle East fractured irreparably into competing churches and Arabs conquered the region setting in motion a process that would lead to its eventual conversion to Islam Jack Tannous argues that key to understanding these dramatic religious transformations are ordinary religious believers often called the simple in late antique and medieval sources Largely agrarian and illiterate these Christians outnumbered Muslims well into the era of the Crusades and yet they have typically been invisible in our understanding of the Middle East s history What did it mean for Christian communities to break apart over theological disagreements that most people could not understand How does our view of the rise of Islam change if we take seriously the fact that Muslims remained a demographic minority for much of the Middle Ages In addressing these and other questions Tannous provides a sweeping reinterpretation of the religious history of the medieval Middle East This provocative book draws on a wealth of Greek Syriac and Arabic sources to recast these conquered lands as largely Christian ones whose growing Muslim populations are properly understood as converting away from and in competition with the non Muslim communities around them

The Encyclopedia of Christianity Erwin Fahlbusch,Geoffrey William Bromiley,1999 The Encyclopedia of Christianity is the first of a five volume English translation of the third revised edition of Evangelisches Kirchenlexikon Its German articles have been tailored to suit an English readership and articles of special interest to English readers have been added The encyclopedia describes Christianity through its 2000 year history within a global context taking into account other religions and philosophies A special feature is the statistical information dispersed throughout the articles on the continents and over 170 countries Social and cultural coverage is given to such issues as racism genocide and armaments while historical content shows the development of biblical and apostolic traditions This comprehensive work while scholarly is intended for a wide audience and will set the standard for reference works on Christianity Outstanding reference sources 2000 American Libraries May 2000 Comp by the Reference Sources Committee RUSA ALA
