What Really Sank The Titanic:

What Really Sank the Titanic Jennifer Hooper McCarty, Tim Foecke, 2008 On the night of April 14 1912 the unsinkable RMS Titanic with over 2 200 passengers onboard struck an iceberg in the North Atlantic and plunged to a watery grave For decades the riddle has haunted the world Now the same CSI techniques that are used to solve modern murder cases are applied to history s worst shipping tragedy The answers will astound you Book jacket

Titanic's Lifeboats James W Bancroft, 2025-11-30 A dramatic retelling of the personal stories of the men women and children survivors of the Titanic lifeboats Foot by foot Titanic s lifeboat No 11 slowly jerked its way down the sides of the great ocean liner as it slipped beneath the cold dark waters of the Atlantic For the fifty or so men women and children crammed into the lifeboat survival was all that mattered Even then though the American fashion designer Edith Rosenbaum Russell ferociously clung to her pig shaped music box until she was rescued its tunes helping to quell the fears of the frightened children onboard Unlike so many of those onboard Titanic that fateful night in April 1912 everyone in lifeboat No 11 would be rescued Bridget McDermott had brought a new hat before she set off for America Bridget climbed into one of the lifeboats believed to be No 13 before realising she had left her precious purchase behind She climbed out of the lifeboat retrieved her hat from her cabin ran back to the open deck and jumped fifteen feet from a rope ladder onto the lifeboat Other garments played an important part in the survival of one of the lifeboats which sprung a leak with the people onboard using clothes to plug the hole Charles Joughin the head baker aboard Titanic floated in the near freezing ocean for around two hours before being pulled out of the water onto one of the lifeboats He had not succumbed to the cold due to the amount of alcohol he had drunk Masabumi Hosono a civil servant from Tokyo was the only Japanese passenger onboard Titanic and being a man he accepted that the women and children first policy had sealed his fate However when a crew member shouted that there were two spaces left in a lifeboat No 10 Hosono jumped in As Japanese honour considered it far better for a man to suffer an honourable death than to survive in a shameful manner when he reached his homeland he was ostracized by his family and lost his job When it sailed Titanic carried twenty lifeboats that between them could accommodate 1 178 people a little over half of the 2 209 on board the night the liner sank Eighteen of these life saving craft were used that night but tragically only 706 people found a space in them This is the dramatic and moving story of the men women and children who made it into the lifeboats that fateful night in April 1912

Subjectivism and Interpretative Methodology in Theory and Practice Fu-Lai Tony Yu, 2020-02-15 Contemporary social science in general and economics in particular are dominated by the method of logical positivism in the British tradition In contrast to the British philosophy Subjectivism and Interpretative Methodology in Theory and Practice adopts subjectivism and interpretation methodology to understand human behavior and social action Unlike positivism this subjectivist approach with its root in German idealism takes human experience as the sole foundation of factual knowledge All objective facts have to be interpreted and evaluated by human minds In this approach experience

knowledge expectation plans errors and revision of plans are key elements Specifically this volume uses the subjectivist approach originated in Max Weber s interpretation method Alfred Schutz s phenomenology and Peter Berger and Thomas Luckmann s sociology of knowledge to understand economic and social phenomena The method brings human agency back into the forefront of analysis adding new insights not only in economics and management but also in sociology politics psychology and organizational behavior
