*Virgilian Tradition II* Craig Kallendorf, 2021-10-25 The *Virgilian Tradition II* brings together thirteen essays by historian Craig Kallendorf. The essays present a distinctive approach to the reception of the canonical classical author Virgil that is focused around the early printed books through which that author was read and interpreted within early modern culture. Using the prefaces, dedicatory letters, and commentaries that accompanied the early modern editions of Virgil's *Eclogues*, *Georgics*, *Aeneid*, and *Appendix Virgiliana*, they demonstrate how this paratextual material was used by early readers to develop a more nuanced interpretation of Virgil's writings than twentieth-century scholars believed they were capable of. The approach developed throughout this volume shows how the emerging field of book history can enrich our understanding of the reception of Greek and Latin authors. This book will appeal to scholars and students of early modern history as well as those interested in book history and cultural history. **Johnson's New Universal Cyclopædia : a Scientific and Popular Treasury of Useful Knowledge** Frederick Augustus Porter Barnard, 1876 **Saturday Review of Literature**, 1925 **The Sphere**, 1903 The New Russian Book Birgitte Beck Pristed, 2017-08-01 This book takes up the obtrusive problem of visual representation of fiction in contemporary Russian book design. By analyzing a broad variety of book covers, the study offers an absolutely unique material that illustrates a radically changing notion of literature in the transformation of Soviet print culture to a post-Soviet book market. It delivers a profound and critical exploration of Russian visual imaginary of classic popular and contemporary prose. Among all the carelessly bungled covers of mass published post-Soviet series, the study identifies gems from experimental designers. By taking a comparative approach to the clash of two formerly separate book cultures, the Western and the Soviet, that results both in a mixture of highbrow and lowbrow forms and in ideological re-interpretations of the literary works, this book contributes to opening an East-West dialogue between the fields of Russian studies, contemporary book and media history, art design, and visual studies. **Lean Performance ERP Project Management** Brian J.
