Box Office Reddit This Month:

Girl of Steel Melissa Wehler, Tim Rayborn, 2020-03-06 The CW's hit adaptation of Supergirl is a new take on the classic DC character for a new audience. With diverse female characters it explores different versions of the female experience. No single character embodies a feminist ideal but together they represent attributes of the contemporary feminist conversation. This collection of new essays uses a similar approach, inviting a diverse group of scholars to address the many questions about gender roles and female agency in the series. Essays analyze how the series engages with feminism, Supergirl's impact on queer audiences, and how families craft the show's feminist narratives. In the ever-growing superhero television genre, Supergirl remains unique as viewers watch a female hero with almost godlike powers face the same struggles as ordinary women in the series.

New Blood Eddie Falvey, Jonathan Wroot, Joe Hickinbottom, 2021-01-15 This book signifies innovative developments in horror cinema research as well as the current state of the genre within the film and media industries. It is an injection of fresh insights into horror cinema scholarship. This is a book that includes academic studies from established scholars and early career researchers as well as fans of horror cinema.

Media Industries in Crisis Vicki Mayer, Noa Lavie, Miranda Banks, 2024-04-02 This edited volume offers a global overview of the immediate impacts the COVID pandemic had on local and national film, television, streaming, and social media industries, examining in compelling detail how these industries managed the crisis. With accounts from the frontlines, *Media Industries in Crisis* provides readers with a stakeholder framework, management lessons, and urgent commentaries to unpack the nature of crisis management and communications. The authors show how these industries have not only survived but often thrive amidst a backdrop of critical national and regional emergencies, wars, financial meltdowns, and climate disasters. This international collection featuring case studies from 16 countries examines how media industries managed all of these crises successfully, rebranding themselves as essential while making power plays in politics, economics, and culture. The chapters reveal key lessons for the meltdowns, tectonic shifts, and struggles ahead. This collection will be of interest to media and communication students, particularly those focused on media industries, crisis communications, and management, as well as to practitioners working in media industries.

Television and Serial Adaptation Shannon Wells-Lassagne, 2017-01-20 As American television continues to garner considerable esteem, rivaling the seventh art in its cinematic aesthetics and the complexity of its narratives, one aspect of its development has been relatively unexamined. While film has long acknowledged its tendency to adapt, an ability that contributed to its status as narrative art, capable of translating canonical texts onto the screen, television adaptations have seemingly been relegated to the miniseries or classic serial. From remakes and reboots to transmedia storytelling, loose adaptations, or adaptations which last but a single episode, the recycling of pre-existing narrative is a practice that is just as common in television as in film, and this text seeks to rectify that oversight, examining series from *M.A.S.H.* to *Game of Thrones*, *Pride and Prejudice* to *Castle*.

A New Approach to Reading Videogames as Story Thomas Rowland, 2026-01-27

This book introduces a new methodology for understanding videogames with particular attention to three types of videogames: toy games, storybook games, and ludonarratives. This methodology pulls from phenomenological and deconstructionist roots informed by medieval studies and the history of reading to emphasize how important playing stories can be as a form of narrative. This book explores the idea of storyplaying in connection with new ideas on immersive movement, game mechanics, and sacred play to develop a typology of videogames that will enable critics, educators, and theorists to situate videogames within a broad continuum of literary history. Building on this foundation, this book continues by exploring additional facets of this methodology by exploring the relationship between videogames and film criticism, the emerging art world of game-mediated photography, the various economies constructed around videogames, the potential of games to serve as third places, and some suggestions for videogames in the classroom. These ideas are contextualized by the author's argument that videogames serve a purpose akin to the original function of medieval cathedrals as intentional virtual spaces with dedicated and important meditation, which given today's decadent cultural and political climate underscores the urgency of recognizing videogames as being vital to our scholarly and educational enterprises. **The Film Weekly**, 1940
