Issues in Global Business SAGE Publishing, 2021-03-11. In 2020, COVID-19 starkly demonstrated the global interconnectedness of business as it disrupted supply chains and manufacturing operations, broadly shuttered retail stores and led to restrictions on movement and travel around the world. Other events in 2019 also showcased the undeniable globalization of business, be it from the unexpected ramifications of Brexit to the impacts of data breaches across various industries. Riots in Hong Kong over an extradition bill also sparked huge debate and controversy, and the U.S.-China trade war also caused concern. All of these events may have largely and immediately impacted one region, yet effects reverberate across larger swathes of the globe, ultimately affecting vast areas, industries and sectors across the international landscape. *Issues in Global Business* explores all of these and more across a wide range of topics, including the on-demand economy, global manufacturing, Bitcoin, data security and many more. Coupled with a comprehensive overview of the business landscape around the world by Dr. Mamoun Benmamoun, an assistant professor at the Boeing Institute of International Business at Saint Louis University, this book provides students with the essential information they need to assess business practices through an international lens.
