Committee of Public Accounts,2014-02-14 There is at present around 46 billion of outstanding student loans on the Government s books and this figure is set to rise dramatically to 200 billion by 2042 in 2013 prices By 2042 there will be an estimated 6.5 million borrowers of student loans At the same time estimates for the amount of loans that will not be repaid are also rising and the Government assumes that 35-40% of outstanding loans will never be repaid That is some 16 billion to 18 billion on the current debt of 46 billion and 70 billion to 80 billion on the estimated value of student loans by 2042 The Department for Business Innovation Skills the Department is not doing enough to secure value for money from its collection

arrangements The Department is unable to accurately forecast student loan repayments and does not have a sufficient understanding of the likely future cost of non repayment to the taxpayer The Student Loans Company is not doing enough to ensure that it identifies and collects all the repayments due given the substantial size of the financial assets involved and will need to demonstrate value for money from the proposed sale of the student loans book The College Student's Guide to Paying Off Your College Loan Steven Needham,2012-03-02 ABOUT THE BOOK Graduation from college is a time of joy and relief but for those saddled with student loan debt it can also be a time of fear and trepidation Students get a six month grace period before they re required to start paying their loans but this will pass quickly so it is a good idea to start planning how to pay off your student loans as soon as possible The good news is student loan debt is one of the best kinds of debt to have It carries a low interest rate and there are many different payment plans that can be utilized in order to pay down the debt The most important thing to remember is that it is very important to address student debt and not ignore your student loan payments The loan companies have many different programs to help you reduce your debt and avoid accruing more interest but it is vital that you stay in touch with these companies so that they understand your unique financial situation When you get a new job or lose a job the terms of your student loan payment agreements will change accordingly Anytime you have a major life change you will need to consider how it will affect the repayment of your student loans EXCERPT FROM THE BOOK There are also some programs that offer student loan forgiveness When a student loan is forgiven a portion or all of the debt amount is wiped clean and you are no longer required to pay Some student loan forgiveness programs are based on the type of career that you have Teaching Programs If you owe on Stafford student loans you can teach full time for five consecutive years in a low income public school and you may be eligible to have a portion of your loan cancelled This program is set up to encourage graduates to utilize their skills in improving the American public school system You can find out more about this forgiveness program on the Federal Student Aid Website on their Stafford Loan Forgiveness Program for Teachers page Buy a copy to keep reading Student Loans and the Dynamics of Debt Brad Hershbein, Kevin M.
