Disruptive Religion Christian Smith, 2014-07-16

Religion has long played a central role in many social and political movements. Solidarity in Poland, anti-apartheid in South Africa, Operation Rescue in the United States; each of these movements is driven by the energy and sustained by the commitment of many individuals and organizations whose ideologies are shaped and powered by religious faith. In many cases, religious resources and motives serve as crucial variables explaining the emergence of entire social movements. Despite the crucial role of religion in most societies, this religious activism remains largely uninvestigated. Disruptive Religion intends to fill this void by analyzing contemporary social movements which are driven by people and organizations of faith. Upon a firm base of empirical evidence, these essays also address many theoretical issues arising in the study of social movements and disruptive politics.
