## College Rankings 2025:

Innovative Paths to Quality Higher Education in Asia Angela Yung-Chi Hou, Jung Cheol Shin, Bjørn Stensaker, 2026-01-01 This book discusses essential topics on understanding the development and changes in higher educational systems in Asia and explores governance quality assurance stakeholder engagement and innovation in the post massified era from an Asian perspective. While each of the three sections has a particular focus area the common thread across all chapters is the local responses and relevance to global discourse. In each chapter authors highlight the ways in which concerns were raised, compromises made and challenges overcome. This book serves as a valuable resource for various stakeholders including university administrators, admissions counselors, higher education professionals and managers working with international programs, students in higher education programs, policy makers, scholars interested in higher education and policies, various knowledge industries and Quality Assurance QA agencies. Readers learn from the challenges discussed and be inspired to design and implement innovative initiatives and strategies. Given the diversity of partnerships and innovation in research, teaching and learning there is no one way or how to list of steps for effective higher education systems. Rather readers glean insights from various scholars who recognize the value of collaborating across oceans and borders.

### Wanting What's Best Sarah W.

Jaffe,2022-05-24 When privileged parents say that they want what s best for their child they don t consciously add and not for other children Yet the practical effect of parents with privilege relentlessly pursuing their own child s interests is that other children are left behind Author Sarah W Jaffe interviewed dozens of parents who are resisting the cultural pressures to seek the best for only their kids while navigating some of the major decisions that parents make about childcare schools how they use their time and money and the legacy they hope to leave their kids These may not feel like political decisions but each either contributes to a system where only a few can thrive or takes a small step toward dismantling it Our children are watching and learning from how we make choices How we treat the people who care for them tells them how they should behave as a boss Where we send them to school teaches them about their place in the world How we spend our time and money sends them more powerful messages about how to spend theirs than any lecture about the importance of giving back
