Sports Business Management George Foster, Norm O'Reilly, Antonio Dávila, 2026-02-25 This new edition of a popular and accessible textbook equips students with a comprehensive understanding of the sport industry. With a focus on management strategy, marketing, and finance, the decision-making approach of the book emphasizes key concepts while translating them into practice. Content specific to each of the vital stakeholders in the sport business is included. Foster, O'Reilly, and Dávila present a set of modular chapters supported with international examples. The book includes content about sport organizations such as the Olympic Games, FIFA World Cup, the European Premier Leagues, and Major North American Professional Sport Leagues. This is an ideal textbook for upper-level undergraduate and postgraduate students of sports business and management.

The Jewelers' Circular, 1925 **Media Today** Joseph Turow, 2026-03-05 This ninth edition of Joseph Turow's pathbreaking media textbook uses convergence as a lens that puts students at the center of the profound changes in the 21st century media world. It teaches students to think critically about the role of media and what these changes mean for their lives. The book's media systems approach helps students to look carefully at how media content is created, distributed, and exhibited in the new world that the digital revolution has created. From news media to video games and social networking to mobile platforms and streaming, it provides students with the tools they need to understand and critique the media they encounter and consume. The first part examines the media world as a whole, while the second delves deep into key media industries such as the movie, television, and video streaming, and video game industries. This new edition includes critical expanded coverage of social media, economies, cross-border media issues, the rise of news influencers, and subscription platforms, and the growing use of predictive and generative artificial intelligence, as well as brand new case studies and updated figures, tables, and pedagogy, including key terms and further activities. *Media Today* is an excellent introduction to the world of media in the digital age, perfect for students seeking a solid grounding in media studies. Extensive pedagogical materials also make this a highly teachable book well suited to the classroom. The accompanying website has also been updated with new student and instructor resources, including chapter recaps, recommended readings, and instructor's manual.

The Texas Railway Journal, 1921 **Vampire State** Ian Williams, 2024-09-05 This is the terrifying story of China's vampire economy. State capitalism, Socialism with Chinese characteristics. A socialist market economy. There have been numerous descriptions of the Chinese economy. However, none seems to capture the predatory, at times surreal nature of the economy of the world's most populous nation, nor the often bruising and mind-bending experience of doing business with the Middle Kingdom. Rules and agreements mean little. Markets are distorted, statistics fabricated, foreign industrial secrets and technology systematically stolen. Companies and entrepreneurs at home and abroad are bullied, often with the collusion of the victims themselves. The Party is in every boardroom and lab with businesses thriving or dying at its will. All this is part of realising President Xi Jinping's ambition of China becoming the world's pre-eminent economic, technological, and military
