Frederick II (Holy Roman Emperor)

The Art Of Falconry Volume Two:

The Art of Falconry, by Frederick II of Hohenstaufen Frederick II (Holy Roman Emperor), Casey Albert Wood, Florence Marjorie Fyfe, 1943-06 *De Arte Venandi cum Avibus* was written shortly before the year 1250 by Frederick II Holy Roman Emperor King of Sicily and Jerusalem in whose court with its remarkably cosmopolitan and highly intellectual life may be found the real beginning of the Italian Renaissance In spite of its title it is far more than a dissertation on hunting There is a lengthy introduction dealing with the anatomy of birds an intensely interesting description of avian habits and the excursions of migratory birds Indeed this ancient book has long been recognized as the first zoological treatise written in the critical spirit of modern science The sumptuous volume now in hand is however the first translation into English of the complete text originally divided into a prologue and size books Together the translators and editors have at last made available this classic work and have adorned it with notes comments bibliographies and glossary They have produced a work of great value to zoologists especially the ornithologist and also to everyone interested in the history of science and in medieval art and letters The Art of Falconry Frederick II (Holy Roman Emperor), 1943 *The Art of Falconry* Frederick II (Holy Roman Emperor), 1955 Current Therapy in Avian Medicine and Surgery Volume II E-Book Brian Speer, Yvonne R.A. van Zeeland, 2025-03-04 Stay up to date with the latest advances in avian medicine Current Therapy in Avian Medicine and Surgery Volume II brings a wealth of new information on the medical care of avian species with practical approaches to diagnosis and therapy of psittacines and other birds With many of the topics not previously covered in the first volume the two books are complementary to one another and provide any veterinarian with an interest in avian medicine whether novice or expert the latest advances in internal medicine anesthesia analgesia and surgery Sections dedicated to behavior and welfare neonatology and pediatrics conservation and practice management explore important but less commonly discussed aspects of avian practice With contributions from globally recognized experts on avian medicine this is a must have resource for anyone seeking to enhance and expand their expertise and skills in avian healthcare welfare and conservation With the exception of updates on relevant current topics the information presented in this volume predominantly includes material not previously covered in the first volume The many photographs illustrations and comprehensive tables included in this volume visually highlight key concepts of current avian practice standards Sections on pediatrics falconry toucans and hornbills feature specific topics which are less comprehensively included in most references Focused sections on the respiratory system the beak and skull feathers and feet offer detailed information on these particular anatomical regions Pharmacologic intervention and options are explored in depth to allow for clinicians to gain an optimal understanding of how to best develop treatment plans for their patients NEW An eBook version is included with print purchase The eBook allows you to access all of the text figures and references with the ability to search customize your content make notes and highlights and have content read aloud Current Therapy format provides up to date information about patient management of specific disorders

including innovations in therapy and the pros and cons of proposed treatments Coverage of a wide variety of bird species includes psittacines pigeons raptors ratites waterfowl gallinaceous birds and less common species More than 800 full color images depict avian disease conditions show management strategies and thought processes and aid in formulating guidelines to care Summary tables simplify the lookup of key facts and treatment guidelines Appendices provide quick access to a current drug formulary normal biological data clinical pathologic reference ranges and growth and feeding charts of neonatal birds
