model that highlights a Chinese philosopher's insights on ethics after a 22 year study. Three essential components of ethics are examined: metaethics, normative ethics, and virtue ethics. This volume is the second part of the discussion on normative ethics. The author analyzes humanity, liberty, justice, happiness, and systems of moral rules. He puts forward 26 value standards that construct a system of measuring state instruction, reveals the relationship between humanity, liberty, and justice, puts forward three objective laws of happiness, and discusses the goodness of important moral rules such as honesty, self respect, and courage. This set is an essential read for students and scholars of ethics and philosophy in general.
