## Career Exploration

### What is customer service?

Customer service is delivering proactive\* and immediate support to customers anytime in the correspondence of their choice — phone, email, text, chat, and more. Almost every job requires customer service. Some jobs that depend heavily upon, or require, good customer service would be: waitstaff/stressers, Fast Food workers, Cashiers, bank tellers, Flight attendants, Hotel concierge, receptionists, front desk workers, and greeters, just to name a few.

### Why is customer service important?

Customer service is important because it is the relationship between the company and the customer.

Customers will continue to patronize\* establishments they are treated well at. People like to be treated with well and spoken to with respect. Customers, or patrons, often leave reviews of the establishments they have visited. The customer service they received is often the biggest complaint or biggest compliment they will give.

Often, establishments follow "the customer is always right" motto\*. This keeps the employees focused on customer satisfaction, and providing the best possible outcome for the customer.

### Difficult Customers

Sometimes, working with the public means that customers you will encounter people who are unhappy with their service, or are difficult to please. The best thing to do in these situations, is to remain calm, and try to offer solutions that you are able to provide, and are in your range of ability.

If the problem is not something you can fix, or seems urgent (such as an incident report, or a refund) you should always bring your manager or supervisor into the conversation. Your supervisor will have the ability to find a solution, as they have encountered things like this before.

### Questions

1. What is customer service?
2. Name three jobs that require customer service skills.
3. Why is customer service important?
4. What is a common motto that establishments may follow?
5. What should you do if you encounter a difficult customer?
6. If you cannot fix a problem for a customer what should you do?

**matlab simulation of single phase transformer youtube** - Jun 20 2022

web aug 1 2011 matlab simulation simulink modeling and simulation the current transformer for measuring current harmonics using matlab simulink august 2011

*a new modeling of matlab transformer for accurate simulation of* - Jan 28 2023

web the main aim of this paper is to present a new modelling of transformers in simulink matlab enabling to simulate slow transients more accurate than the existing

power electronic transformer design with dual pwm - Feb 26 2023

web jun 23 2021 and the simulation of the whole pet system with dual pwm is accomplished with matlab simulink the simulation results show the control system

**design of phase shifting transformer based on simulink matlab** - Aug 23 2022

web this project aims to model the electrical transformer using matlab coding techniques to obtain the performance characteristics of the machine performance parameters are thus

lec 5 modelling and simulation of single phase two winding - Oct 25 2022

web matlab simulink model of solid state transformer realized with matrix converters abstract a three phase to three phase solid state transformer sst is considered in the present
