**Student's Name:** \_\_\_\_\_

Over the past decade, Netflix has become much more than just a streaming platform – it has become a cultural phenomenon, particularly among teens. The obsession with Netflix series has swept through this demographic, influencing their conversations, social interactions, and even shaping their identity in many ways. In today's society, it is impossible to ignore the impact that Netflix has had on the lives of teenagers.

One of the main reasons for the **immense** popularity of Netflix among teens is its **binge-watching** capabilities. The ability to access entire seasons of their favorite shows with a click has led to marathons that span entire weekends or school holidays. The allure of gripping storylines, relatable characters, and **cliffhangers** at the end of each episode keeps them glued to their screens for hours on end. This has become a popular way for teens to bond with their friends and spend their leisure time.

But watching shows on Netflix has become more than just a leisure activity – it has become a social currency among teens. Discussing plot twists, character developments, and speculating about what's next fosters a sense of community and belonging. Online forums, social media groups, and in-person conversations are platforms for sharing opinions, fan theories, and creating a sense of camaraderie among peers. Netflix series have become a common topic of conversation and a way for teenagers to connect with one another.

However, the popularity of binge-watching also raises concerns about the impact on mental health. Excessive screen time, lack of physical activity, and disrupted sleep patterns can contribute to increased stress, anxiety, and even depression among teens. While it is important for teenagers to balance their enjoyment of these series with healthy habits, it can be a challenging task. The addictive nature of binge-watching can easily lead to a lack of balance in their lives.

**CALL for widening participation: short papers from EUROCALL 2020** Karen-Margrete Frederiksen, Sanne Larsen, Linda Bradley, Sylvie Thouësny, 2020-12-14 Despite the Covid 19 pandemic the EUROCALL society succeeded in holding the 28th EUROCALL conference EUROCALL2020 on 20-21 August as an online two day gathering. The transition process required to make this happen was demanding and insightful for everyone involved and in many ways a logical consequence of the core content and purpose of EUROCALL. Who would be better suited to transform an onsite conference into an online event than EUROCALL? CALL for widening participation was this year's theme. We welcomed contributions from both theoretical and practical perspectives in relation to the many forms and contexts of CALL. We particularly welcomed longitudinal studies or studies that revisited earlier studies. The academic committee accepted 300 abstracts for paper presentations, symposia, workshops and posters under this theme. 57 short papers are published in this volume. We hope you will enjoy reading this volume, the first one to reflect a one hundred percent online EUROCALL conference. Online Gathering

**Digital for Good** Richard Culatta, 2021-07-20 Kids deserve a better digital future. Help them create it. When it comes to raising children in a digital world, every parent feels underprepared and overwhelmed. We worry that our children will become addicted to online games, be victims of cyberbullying or get lost down the rabbit hole of social media. We warn them about all the things they shouldn't do online, but we don't do nearly enough to teach them the skills of digital well-being. It's time to start a new conversation. In *Digital for Good*, EdTech expert Richard Culatta argues that technology can be a powerful tool for learning, solving humanity's toughest problems and bringing us closer together. He offers a refreshingly positive framework for preparing kids to be successful in a digital world, one that encourages them to use technology proactively and productively by outlining five qualities every young person should develop in order to become a thriving contributing digital citizen. Be balanced, understand when and how much tech use is healthy. Stay informed, discern between true and false information. Be inclusive, treat others with respect and kindness online. Be engaged, use tech to strengthen family relationships and community connections. Stay alert, exercise caution and create safe digital spaces for others. This practical guide will help parents and children discover the path to becoming effective digital citizens all while making our online world a better place.
