**Evergreen Sales** Ethan Evans, AI, 2025-03-03. Evergreen Sales offers a strategic blueprint for building sustainable sales systems that generate consistent revenue moving beyond the unpredictable cycle of campaign driven sales. It focuses on creating automated sales funnels, crafting timeless marketing messages, and establishing reliable revenue streams that withstand market fluctuations. A key insight is mastering lead generation so that you can nurture prospects into loyal customers through email marketing automation and CRM, ensuring long term value creation instead of chasing fleeting gains. The book emphasizes the shift from reactive to proactive sales strategies, enabling businesses to focus on innovation and long term goals. It begins by contrasting evergreen sales with traditional approaches, then delves into building automated funnels and crafting marketing messages that resonate with core human needs. Case studies and data driven insights support the arguments, drawing from behavioral economics and marketing psychology to provide a well rounded approach. What sets this book apart is its emphasis on building revenue streams independent of constant intervention. It argues that true business sustainability lies in developing systems that operate autonomously. The book progresses by introducing core concepts, then systematically exploring automated sales funnels, timeless marketing, and consistent revenue generation, culminating in a framework for continuous improvement.

[The AI Revolution in Customer Service and Support](#) Ross Smith, Mayte Cubino, Emily McKeon, 2024-07-16. *Big or Smart Data? Recent trends in Data Science for sales and marketing* (Julia Ertel, 2022-05-09)

Bachelor Thesis from the year 2021 in the subject Business economics, Miscellaneous grade 1.0. Pforzheim University, language English, abstract: Big data is getting larger, the pressure in the market to use the existing data is getting stronger, and therefore also the number of companies that address the topic of data science increases. This dissertation focuses on identifying big or smart data science trends in marketing and sales within the consumer packaged goods industry. The objective of this research is to address actual opportunities around data science for the selected focus area. The following

research project analyzes those opportunities and identifies nine data science trends. Via in depth interviews the expert's experiences and difficulties with data science are questioned. Emotions that arise through the interaction with this science are recognized and potentials for improvements are discussed. Subsequently central meaningful quotations are analyzed with Mayring's qualitative content analysis reformulated into condensed codes and summarized through eighteen overarching categories. The general findings of this analysis include the necessity of smart data insights within this low margin industry, the dependence on consultancy support due to knowledge gaps, expandable engagement in the B2B environment, the promotion of data thinking and acting, the merge of sales and marketing for data science knowledge generations, and the extension of data science knowledge to maintain competitive advantage within the market for the long run. The improvement proposals consist mainly of automated data cleaning, intelligent algorithms, data handling, knowledge development, data democracy, and knowledge combinations in form of project dependent focus teams to broaden data science applications within the industry.

**WIPO Magazine, 2015 Impact of Influencer Marketing on Young Women's Customer Experience on Cosmetic Products**

Jule Prescher, 2023-06-06 Bachelor Thesis from the year 2023 in the subject

Communications Multimedia Internet New Technologies grade 1 3 University of applied sciences Cologne language English abstract This thesis aims to realize how influencer marketing performs and its impact on the Cx. Therefore the research addresses the following questions: How powerful are influencers these days? What is different about influencer marketing and why is it a successful strategy? How do people perceive information shared by influencers and which factors are decisive for potential customers to purchase products advertised by influencers? What impact does an influencer have on the overall Cx? The internet has been fully integrated into people's daily lives worldwide over the past years. The percentage of the world's population with access to the internet has doubled from 32% in 2011 to 63% in 2021. 90% of people from developed countries access the internet in 2021. At the same time the number of social network users is increasing. These networks have the purpose of connecting with friends. In 2022 5 billion people have access to the internet worldwide and 4.7 billion people use social media SM. Ultimately 93% of those with internet access own at least one SM account that is more than half the population worldwide. Through time companies found new marketing strategies which reached active people on SM. These platforms are necessary to reach Generation Z people born in the late 1990s. They are different and cannot be reached in the same way as they watch Netflix instead of TV or listen to Spotify instead of the radio for example. Influencer marketing became a 10 billion industry in 2020. Influencers share their lives on SM networks. Due to their high reach they receive offers from companies for cooperation. Influencers' followers admire and trust their recommendations due to their personal and authentic representation. While advertising products influencers show how to use them, where to buy them and give their opinion. For higher sales influencers often receive promo codes for a discount or free products for each order.
