Baporikar, Neeta,2014-06-30 This book examines the need for a paradigm shift in the area of post secondary education and innovation in the emerging yet relatively understudied MENA region Provided by publisher

*Self-Initiated Expatriates in Context* Maike Andresen,Chris Brewster,Vesa Suutari,2020-10-01 This edited volume builds on the previously published Self Initiated Expatriation Individual Organizational and National Perspectives which served to give in depth

insights into the concept and the processes of self initiated expatriation and presented different groups undertaking self initiated foreign career moves While more than a hundred articles on self initiated expatriation SIE have been published in the meanwhile an examination of the research questions and samples of SIEs in published SIE research shows that the role of

context and its impact on SIEs career related decisions and behaviors has not been explored sufficiently. This raises the question in how far existing research results are comparable. The aim of this follow up volume is to deepen the understanding of SIEs careers focusing on the contextual influences of space, time and institutions on the heterogeneous SIE population. More specifically the editors aim to shed light on spatial conditions in terms of the home and host country conditions on the self initiated expatriation experience and examine developments over time in terms of temporality of conditions and SIEs life course. Moreover the influence of the institutional context in terms of occupational, organisational and societal specificities will be analysed. All chapters are based on strong theoretical foundations that serve to conceptualise context and are written by both established and emerging global academics and researchers. *Self Initiated Expatriates in Context* contributes to conceptual clarity in the burgeoning field of SIE research by drawing attention to the importance of exploring context and thus boundary conditions to careers. It offers specific guidance for an improvement of future SIE related research in order to enhance the validity of future empirical studies as well as for an improvement of managerial practice. It will be of interest to researchers, academics, practitioners and students in the fields of international business, human resource management, organisational studies and strategic management. Chapters 1, 4 and 12 of this book are freely available as downloadable Open Access PDFs at <http://www.taylorfrancis.com> under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4.0 license.

**Intercultural Mediation in Healthcare:** Izabel E. T. de V. Souza Ph.D., 2016-08-12 Cultural differences pose certain complexities to the work of medical interpreters. They face unique and sometimes conflicting demands from healthcare providers culturally diverse patients and their healthcare organizations. It is important for this topic to be explored from the professional interpreters perspective as they are the ultimate experts of their own practice. Their accounts point to the fact that intercultural mediation is an integral and important part of their work and that the vast majority of interpreters worldwide is practicing it competently and responsibly. Intercultural Mediation in Healthcare showcases the results of an international doctoral study exploring the perspectives of 458 interpreter practitioners from 25 different countries. The book reveals the intricacies of how interpreters are bridging cultural gaps between providers and patients with data compiled and cross referenced from four different sources. Academic research and published standards of practice for the profession were reviewed and analyzed. Interpreters were ultimately given a voice to describe this important component of their work. According to medical interpreters they play a significant role in intercultural communication mediation a role that goes well beyond being a linguistic conduit. A deeper understanding of what intercultural mediation is and what it isn't is essential not only to interpreters but also to other related stakeholders educators researchers administrators and policy makers or anyone who wishes to better understand where interpreters fit in the provision of culturally and linguistically appropriate services.
