**Understanding Dhimmitude** Bat Ye'or, 2013 UNDERSTANDING DHIMMITUDE brings together for the first time twenty one talks and lectures in which Bat Ye'or explains in layman's terms the essential concepts from her studies the fruit of over four decades of groundbreaking research Bat Ye'or's pioneering studies of the Islamic concept of dhimmitude have revolutionized our understanding of Islam's past present and future She remains one of the few analysts in the world with the courage and insight necessary to tell the truth Robert Spencer Jihad Watch Bat Ye'or is the acknowledged expert on the plight of Jews and Christians in Muslim lands and their vigorous champion Sir Martin Gilbert Bat Ye'or's scholarship is highly impressive and her analysis is as persuasive as it is terrifying It is imperative that these issues are openly discussed There are however alarming signs of attempts in the West to shut down such discussion on spurious grounds of prejudice This is of course itself a prime example of the condition of dhimmitude which Bat Ye'or so graphically describes Melanie Phillips Jewish Chronicle It is not surprising that Bat Ye'or's study of jihad and dhimmitude has been stimulating substantial and disturbing discussion in academic and ecumenical circles Perhaps the single most significant contribution of the author is her definition and development of the concept of dhimmitude Bat Ye'or's books on dhimmitude and jihad have an essential place in the ecumenical world ignoring them will only perpetuate illusion James E Biechler Journal of Ecumenical Studies Bat Ye'or has enriched our understanding of how Islamic societies are structured by defining the concept of dhimmitude Her contribution to Islam critique can't be underestimated Yes she and her late husband the human rights activist and historian David Littman are the king and queen of the genre Professor Johannes J G Jansen

**The Claim to Christianity** Hannah Strømme, Ulrich Schmiedel, 2020-06-30 The far right is on the rise across Europe pushing a battle scenario in which Islam clashes with Christianity as much as Christianity clashes with Islam From the margins to the mainstream far right protesters and far right politicians call for the defence of Europe's Christian culture The far right claims Christianity This book investigates contemporary far right claims to Christianity Ulrich Schmiedel and Hannah Strømme examine the theologies that emerge in the far right across Europe concentrating on Norway Germany and Great Britain They explore how churches in these three countries have been complicit complacent or critical of the far right sometimes intentionally and sometimes unintentionally Ultimately Schmiedel and Strømme encourage a creative and collaborative theological response To counter the far right Christianity needs to be practiced in an open and open ended way which calls Christians into contact with Muslims

**The Bibles of the Far Right** Hannah M. Strømme, 2024 The Bibles of the Far Right is about a far right worldview that has taken hold in contemporary Europe It focuses on the role Bibles have come to play in this worldview Starting with the case of far right terrorism in Norway in 2011 the study argues that particular perceptions of the Bible and particular uses of biblical texts have been significant in calls to protect Europe against Islam This study proposes new ways to understand political Bible use today in order to respond to violence inspired by biblical texts

**Keeping the Faith in Exile: Kuwait-Coptic**

**Orthodox Diasporic Spirituality** Benjamin Daniel Crace, 2023-11-13 Few churches today can trace their lineage as far back as the Copts Their ancient traditions and rituals go back as far as the very beginnings of Christianity For centuries they have withstood many trials and martyrdoms But in the twentieth century many Copts left their homeland and scattered all over the Earth seeking prosperity and security Many went to the West but many others went to the heart of the Islamic world the Arabian Gulf They took their faith with them into this new and challenging environment In this context hybrid forms of spirituality emerged anchored in the ancient practices but sharpened by contact with globalisation This migrant spirituality characterises their stories and touches the heart of what it means to be a Christian sojourner today

**Religious Violence, Political Ends** Marco Demichelis, 2018-11-01 Politisch begründete religiöse Gewalt war und ist seit der Antike eine gängige Praxis Die Gräueltaten des Römischen Reiches gegen die frühen christlichen Gemeinschaften wurden schnell durch nicht minder aggressive Handlungen gegen die nicht christlichen Gläubigen ersetzt denen abscheuliche und polytheistische Praktiken vorgeworfen wurden Mit dem Aufkommen der Moderne hat die Homogenisierung der religiösen Sphäre für politisch ökonomische Zwecke die Vernichtung jeder Form von Häresie und die Ausbreitung des Protestantismus des Calvinismus und des Anglikanismus eine Umstrukturierung und Konzeptualisierung der westeuropäischen Staaten bewirkt ganz nach der Devise ein Königreich mit einer Religion und einer Nation Das Ende der Religionskriege 1648 die Westfälische Souveränität und der *cuius regio eius religio* hatten Einfluss auf die Bildung des modernen Europa und anderer Regionen der französisch britische Kolonialismus zwang dabei dem gesamten Nahen Osten und der islamischen Welt das gleiche System auf Der vorliegende Band widmet sich der Untersuchung von interreligiöser Gewalt religiösem Sektierertum und Islamophobie auf theoretischer Basis verbunden mit dem Kampf der Kulturen und dem Religiösen Nationalismus als Ausdruck politischer Ziele mit denen die Erhaltung der Fragmentierung und der kriegesischen Auseinandersetzungen im Osten sowie das Schüren von Ängsten und Vorurteilen im Westen verfolgt werden Religious violence due to political reasons has been a common practice since ancient times The massacres of early Christian communities carried out by the Roman Empire were rapidly replaced by equally harsh measures against non-Christian believers being accused of abominable and polytheistic practises The advent of the modern age the homogenization of the religious sphere for political economic ends the annihilation of any kind of heresy and the emergence of Protestantism Calvinism and Anglicanism restructured the conceptualization of the Western European States emphasizing the adage one kingdom with one religion and one nation The end of the religious wars 1648 the Westphalian sovereignty and the *cuius regio eius religio* had an impact on the formation of Europe and other regions the Franco-British colonialism imposed the same system on the entire Middle Eastern and Islamic World This volume thoroughly examines the usage of inter-religious violence religious sectarianism and Islamophobia on a theoretical basis linked with Clashes of Civilizations and Religious Nationalism and describes them as manifestations of precise political ends aiming to preserve fragmentation and warlike states in the East as well as fear and prejudices in the

West Christianity in Oman Andrew David Thompson, 2019-10-31 This book explores the relationship between the distinctive Islamic beliefs Ibadism of Oman and how they define the experience of the church with regards to religious freedom Oman is a nation with a long and glorious history of maritime trade stretching from China and India to the East coast of Africa From sultan to shopkeeper farmer to craftsman the citizens of Oman embrace a surprising diversity of cultural heritage ranging from Baluchi Persian Yemeni and East African Yet there has hitherto been very little research about Christianity in this part of the world Through the use of historical research interviews and theological discourse Andrew David Thompson analyzes and reveals the distinctive experience of the Church in Oman *Middle Eastern Minorities*

Ibrahim Zabad, 2017-03-27 This is a comprehensive survey of minorities in the Middle East with a special focus on the post Arab Spring era Minority communities in the Middle East are the most susceptible to the turbulence engulfing the region the majority may suffer physical violence and socioeconomic loss but minorities could potentially vanish Instead of ushering in democracy and inclusive politics the revolutionary upheavals have prompted chaos and fear and reinforced the resurgence of Islamic fundamentalism throughout the region Zabad uses historical sources as well as first hand interviews to vividly describe the current status of minorities in the Middle East explaining attitudes towards the revolutionary upheavals as well as the various strategies they used to avail themselves of the opportunities presented and to confront the risks posed The question of ethnic sectarian and religious minorities is situated in the context of the broader history of the region in order to explain the underlying institutional and ideological factors that caused their predicament and problematized their relationship with the majority The book provides a rich trove of information and insights generated from ten case studies that covered the Shia in Saudi Arabia Bahrain Lebanon and Egypt the Druze the Alawites Christians and Kurds in Syria the Copts in Egypt and the Zaydis in Yemen **The Third Choice** Mark Durie, 2010 In the classical Islamic ideology of conquest the first choice offered to non Muslims was conversion to Islam the second choice was the sword and the third was surrender Mark Durie's innovative book exposes the history and ideology of surrender the Third Choice which has determined the lived reality of non Muslims known as dhimmis living under Muslim rule Durie grounds his analysis of the dhimmi condition in the teachings of Islam and the life of Muhammad His ground breaking analyses show how the ideology of the terms of surrender known as a dhimma pact determines life for non Muslims under Islamic dominance The worldview of dhimmitude he argues offers indispensable keys for understanding current trends in global politics including the widening impact of sharia revival deterioration of human rights in Islamic societies jihad terrorism recurring patterns of Western appeasement and the increasingly fraught relationship between migrant Muslim communities in the West and their host societies **Myth of Islamic Tolerance** Robert Spencer, 2005-01-31 This collection of essays by some of the world's leading authorities on Islamic social history focuses on the juridical and cultural oppression of non Muslims in Islamic societies The authors of these in depth but accessible articles explode the widely diffused myth promulgated by Muslim advocacy groups of a largely

tolerant pluralistic Islam In fact the contributors lay bare the oppressive legal superstructure that has treated non Muslims in Muslim societies as oppressed and humiliated tributaries and they show the devastating effects of these discriminatory attitudes and practices in both past and contemporary global conflicts Besides original articles primary source documents here presented also elucidate how the legally mandated subjugation of non Muslims under Islamic law stems from the Muslim concept of jihad the spread of Islam through conquest Historically the Arab Muslim conquerors overran vast territories containing diverse non Muslim populations Many of these conquered people surrendered to Muslim domination under a special treaty called dhimma in Arabic As such these non Muslim indigenous populations mainly Christians and Jews were then classified under Islamic law as dhimmis meaning protected Although protected status may sound benign this classification in fact referred to protection from the resumption of the jihad against non Muslims pending their adherence to a system of legal and financial oppression as well as social isolation The authors maintain that underlying this religious caste system is a culturally ingrained contempt for outsiders that still characterizes much of the Islamic world today and is a primary impetus for jihad terrorism Also discussed is the poll tax Arabic jizya levied on non Muslims the Islamic critique of the Universal Declaration of Human Rights the use of jihad ideology by twentieth century radical Muslim theorists and other provocative topics usually ignored by Muslim apologists This hard hitting and absorbing critique of Islamic teachings and practices regarding non Muslim minorities exposes a significant human rights scandal that rarely receives any mention either in academic circles or in the mainstream press
