Understanding Trademark Law:

Understanding Trademark Law Mary LaFrance, 2009 *Understanding Trademark Law* is a comprehensive and up to date guide to the law of trademarks and unfair competition. It provides a thorough introduction to the federal laws protecting registered trademarks and trade dress as well as the broad array of federal and state unfair competition doctrines which protect unregistered trademarks and trade dress. Coverage includes the standards and procedures for obtaining federal registration, the rights and remedies available to owners of both registered and common law marks under federal and state law and the full array of applicable defenses. The text examines both the substantive and procedural rules governing traditional claims for infringement of trademarks and trade dress as well as claims of dilution, false advertising and cybersquatting. This is a detailed and sophisticated yet concise treatment of the rapidly expanding area of trademark and unfair competition law. All assertions in the text are supported by precise citations to the relevant authorities. In addition to providing a thorough explanation of the fundamentals of each topic, the text identifies those areas in which the law remains unsettled due to conflicting or sparse authorities, makes note of circuit splits and emerging trends in the law and points the reader toward additional authorities that will enhance his or her understanding of each topic. This text is suitable as an introduction to the field as a practitioner's desk book or as a study aid to accompany any of the standard casebooks on the subject.

Understanding Basic Trademark Law, 1995 **The Semiotics of Law in Legal Education** Jan M. Broekman, Francis J. Mootz III, 2011-07-06. This book offers educational experiences including reflections and the resulting essays from the Roberta Kevelson Seminar on Law and Semiotics held during 2008-2011 at Penn State University's Dickinson School of Law. The texts address educational aspects of law that require attention and that also are issues in traditional jurisprudence and legal theory. The book introduces education in legal semiotics as it evolves in a legal curriculum. Specific semiotic concepts such as sign, symbol or legal language demonstrate how a lawyer's professionally important tasks of name giving and meaning giving are seldom completely understood by lawyers or laypeople. These concepts require analyses of

considerable depth to understand the expressiveness of these legal names and meanings and to understand how lawyers can say the law or urge such a saying correctly and effectively in the context of a natural language that is understandable to all of us The book brings together the structure of the Seminar its foundational philosophical problems the specifics of legal history and the semiotics of the legal system with specific themes such as gender family law and business law **Intellectual**
