What Makes a Good Primary School Teacher? Caroline Gipps, Eleanore Hargreaves, Bet McCallum, 2002-01-04 A fascinating account of the range of teaching assessing and feedback strategies used by individual expert teachers. The book describes the most common lesson patterns why and when they are used how teaching strategies are varied according to subjects how assessment and feedback information can encourage pupils to learn the differences in teaching seven year olds and eleven year olds **The Effective Primary School Classroom** Joan Dean, 2013-01-11 This book describes good practice in the primary school and offers advice particularly to beginning teachers and students. It begins by considering the children their physical intellectual and emotional development and the development of their self image. It makes suggestions about ways in which a teacher can assess a new class and stresses the importance of motivation and first hand experience. The Effective Primary School Classroom covers all the issues teachers are faced with in their day to day work and includes chapters on managing time and space teaching and learning working in groups evaluation and record keeping classroom management working with support staff working with parents. In addition there is discussion of ways of organising learning to help children acquire the learning set out in the National Curriculum. Including case studies and suggestions for investigations this text is essential reading for student teachers about to begin school placements or newly qualified teachers just starting their first post. More experienced teachers and teacher trainers will also find the book a useful resource.
