The Astronomical Observer William A. Darby, 2015-06-15 Excerpt from *The Astronomical Observer A Handbook to the Observatory and the Common Telescope* Mysterious Night when our first parent knew Thee from report divine and heard thy name Did he not tremble for this lovely frame This glorious canopy of light and blue Yet neath a curtain of translucent dew Bathed in the rays of the great setting flame Hesperus with the host of heaven came And lo Creation widen d in man s view Who could have thought such darkness lay conceal d Within thy beams O Sun or who could find Whilst fly and leaf and insect stood reveal d That to such countless orbs Thou mad st us blind Why do we then shun death with anxious strife If light can thus deceive why may not life
