Soviet Bloc Jakub Tyszkiewicz, 2023-09-29 This volume analyzes US policy toward communist ruled Poland in the fields of diplomacy economy culture and public diplomacy It highlights the limitations in developing cooperation between democratic and nondemocratic countries resulting from the Cold War conflict No comprehensive account of US policy toward Poland from 1956 to 1968 has emerged in historiography This book aims to answer why since the political changes of the Polish October 1956 Washington ceased to see Polish affairs as Soviet related matters Instead it recognized communist ruled Poland as a separate political entity among other Kremlin dependent states in Eastern Europe This policy introduced by the Dwight D Eisenhower administration was continued by his successors John F Kennedy and Lyndon B Johnson Recently declassified US and Polish archival sources allow the presentation of more considerations around the decision making mechanisms by presidential administrations regarding communist Poland after 1956 They also reveal the dependence of the implementation of US actions on the climate of international relations Moreover they can now explain how Poland became an open window toward the Soviet bloc and a model example of the changes in the US policy of diversifying its approach to Eastern European countries under Soviet control in the next decades **The Window Before** Brett V. Benson, Bradley C.

Smith, 2025-12-31 *The Window Before* examines how military alliances are implemented and why they take time to become fully effective The book explores how the anticipation of a new alliance can lead to preventive wars where targets act aggressively to stop the alliance before it s fully operational It also discusses strategies allies use to avoid provoking conflict while still benefiting from their partnership The book brings these insights to bear on contemporary global tensions including the ongoing war in Ukraine China Taiwan relations and the emerging no limits security partnership between Russia and China
