## Through Vegetal Being Two Philosophical Perspectives Critical Life Studies:

**Through Vegetal Being** Luce Irigaray, Michael Marder, 2016-07-05 Blossoming from a correspondence between Luce Irigaray and Michael Marder Through Vegetal Being is an intense personal philosophical and political meditation on the significance of the vegetal for our lives our ways of thinking and our relations with human and nonhuman beings The vegetal world has the potential to rescue our planet and our species and offers us a way to abandon past metaphysics without falling into nihilism Luce Irigaray has argued in her philosophical work that living and coexisting are deficient unless we recognize sexuate difference as a crucial dimension of our existence Michael Marder believes the same is true for vegetal difference Irigaray and Marder consider how plants contribute to human development by sustaining our breathing nourishing our senses and keeping our bodies and minds alive They note the importance of returning to ancient Greek tradition and engaging with Eastern teachings to revive a culture closer to nature As a result we can reestablish roots when we are displaced and recover the vital energy we need to improve our sensibility and relation to others This generative discussion points toward a more universal way of becoming human that is embedded in the vegetal world [Countersexual Manifesto](#)

Paul B. Preciado, 2018-12-18 Countersexual Manifesto is an outrageous yet rigorous work of trans theory a performative literary text and an insistent call to action Seeking to overthrow all constraints on what can be done with and to the body Paul B Preciado offers a provocative challenge to even the most radical claims about gender sexuality and desire Preciado lays out mock constitutional principles for a countersexual revolution that will recognize genitalia as technological objects and offers step by step illustrated instructions for dismantling the heterocentric social contract He calls theorists such as Derrida Foucault Butler and Haraway to task for not going nearly far enough in their attempts to deconstruct the naturalization of normative identities and behaviors Preciado s claim that the dildo precedes the penis that artifice not nature comes first in the history of sexuality forms the basis of his demand for new practices of sexual emancipation He calls for a world of sexual plasticity and fabrication of bio printers and dildonics and he invokes countersexuality s roots in the history of sex toys pornography and drag in order to rupture the supposedly biological foundations of the heterocentric regime His claims are extreme but supported through meticulous readings of philosophy and theory as well as popular culture The Manifesto is now available in English translation for its twentieth anniversary with a new introduction by Preciado Countersexual Manifesto will disrupt feminism and queer theory and scandalize us all with its hyperbolic but deadly serious defiance of everything we ve been told about sex [Foucault's Futures](#) Penelope Deutscher, 2017-04-04 In Foucault s Futures Penelope Deutscher reconsiders the role of procreation in Foucault s thought especially its proximity to risk mortality and death She brings together his work on sexuality and biopolitics to challenge our understanding of the politicization of reproduction By analyzing Foucault s contribution to the politics of maternity and its influence on the work of thinkers such as Roberto Esposito Giorgio Agamben and Judith Butler Deutscher provides new insights into the conflicted

political status of reproductive conduct and what it means for feminism and critical theory

**Perishability Fatigue**

Vincent Bruyere, 2018-09-25 The Svalbard Global Seed Vault project is an arctic archive designed to preserve the world's agricultural biodiversity. What do it and other novel forms of storage tell us about our relationship to the future in a time of resource depletion and extinction scenarios? In this innovative book Vincent Bruyere offers an invitation to look at the present we live in through a fresh lens: the difference between storage and burial in the age of sustainability science. Perishability Fatigue considers questions of permanence and the potentiality of retrieval, noting the tensions within our collective sense of time and finitude. Bruyere reflects on the nature and significance of perishability, asking what it means to have one's sense of temporality engendered by seed banks and frozen embryo storage, genetically modified organisms and the de-extinction of species, nuclear waste repositories, oncology and palliative care. He draws attention to the scripts and scenarios that mediate our relations to loss and decay, preservation and conservation, emphasizing the inequalities implicit in technologies of perishability which promise continuity in the future to some while refusing it to others. A highly interdisciplinary study, Perishability Fatigue reframes the environmental humanities and humanistic inquiry into sustainability science by developing a new language to commemorate fatigue and transience in a culture of preparedness and survival.

*Speculative Taxidermy*

Giovanni Alois, 2018-01-23 Taxidermy once the province of natural history and dedicated to the pursuit of lifelike realism has recently resurfaced in the world of contemporary art culture and interior design. In *Speculative Taxidermy*, Giovanni Alois offers a comprehensive mapping of the discourses and practices that have enabled the emergence of taxidermy in contemporary art. Drawing on the speculative turn in philosophy and recovering past alternative histories of art and materiality from a biopolitical perspective, Alois theorizes speculative taxidermy as a powerful interface that unlocks new ethical and political opportunities in human-animal relationships and speaks to how animal representation conveys the urgency of addressing climate change, capitalist exploitation and mass extinction. A resolutely nonanthropocentric take on the materiality of one of the most controversial mediums in art, this approach relentlessly questions past and present ideas of human separation from the animal kingdom. It situates taxidermy as a powerful interface between humans and animals, rooted in a shared ontological and physical vulnerability. Carefully considering a select number of key examples, including the work of Nandipha Mntambo, Maria Papadimitriou, Mark Dion, Berlinda De Bruyckere, Roni Horn, Oleg Kulik, Steve Bishop, Snejana Björnsdóttir, Wilson and Cole Swanson, *Speculative Taxidermy* contextualizes the resilient presence of animal skin in the gallery space as a productive opportunity to rethink ethical and political stances in human-animal relationships.

**The ecological eye**

Andrew Patrizio, 2018-12-06 In the popular imagination, art history remains steeped in outmoded notions of tradition, material value and elitism. How can we awaken, define and orientate an ecological sensibility within the history of art? Building on the latest work in the discipline, this book provides the blueprint for an ecocritical art history, one that is prepared to meet the challenges of the Anthropocene, climate change and global warming. Without ignoring its own histories, the book looks beyond

at politics posthumanism new materialism feminism queer theory and critical animal studies invigorating the art historical practices of the future    **Gospel Jesuses and Other Nonhumans** Stephen D. Moore,2017-08-04 Essential reading for biblical studies students and scholars interested in cutting edge critical theory The current global ecological crisis has prompted a turn to the nonhuman in critical theory This book breaks new ground in biblical studies as the first to bring nonhuman theory to bear on the gospels and Acts Nonhuman theory a confluence of several of the main theoretical streams that have issued forth since the heyday of high poststructuralism includes affect theory posthuman animality studies critical plant studies object oriented new materialisms and assemblage theory Nonhuman theory dismantles and reassembles the Western concept of the human that coalesced during the Enlightenment and testifies to other conceptions of the human and of the nonhuman not least those found in the canonical gospels and Acts Stephen D Moore s exegetical explorations and defamiliarizations of these overly familiar texts and excavations of their incessantly erased strangeness are the central feature of this provocative book Features New paths in biblical ecotheology and ecocriticism A significant contribution to the analysis of emotions in biblical texts Class resource for courses in methods for biblical studies the gospels and the Bible and ecology    **Making Kin with Trees** Solvejg Nitzke,2025-09-30 This book analyzes how trees act as mediators of interspecies relationships in popular science writing and creative nonfiction Making Kin with Trees argues that trees emerge as agents of arboreal poetics shaping not only fictional but also material interactions Following how speculative care practices infuse scientific and poetic texts formatting practices of reading sensing knowing and communicating with trees while affirming both cultural and scientific meaning making processes This book shows how arboreal thinking connects and might ultimately require breaking down the barrier between fact and fiction human and plant onlooker and artwork This book will be of interest to audiences based in fields including environmental humanities science and technology studies and ecocriticism and everyone engaged in science communication and interested in the relationship between scientific fact and narrative    **Medicines That Feed Us** Stacey A. Langwick,2026-01-02 Through an ethnography of plant based healing and sustainable farming practices in Tanzania Stacey A Langwick examines the relationship between toxicity and remedy in the face of the intertwined health and environmental crises that shape life in the twenty first century

**Palgrave Handbook of Critical Posthumanism** Stefan Herbrechter,Ivan Callus,Manuela Rossini,Marija Grech,Megen de Bruin-Molé,Christopher John Müller,2022-11-28 Palgrave Handbook of Critical Posthumanism is a major reference work on the paradigm emerging from the challenges to humanism humanity and the human posed by the erosion of the traditional demarcations between the human and nonhuman This handbook surveys and speculates on the ways in which the posthumanist paradigm emerged transformed and might further develop across the humanities With its focus on the posthuman as a figure on posthumanism as a social discourse and on posthumanisation as an on going historical and ontological process the volume highlights the relationship between the humanities and sciences The essays engage with posthumanism in connection with subfields like

the environmental humanities health humanities animal studies and disability studies The book also traces the historical representations and understanding of posthumanism across time Additionally the contributions address genre and forms such as autobiography games art film museums and topics such as climate change speciesism anthropocentrism and biopolitics to name a few This handbook considers posthumanism s impact across disciplines and areas of study **The Athenaeum** James Silk Buckingham,John Sterling,Frederick Denison Maurice,Henry Stebbing,Charles Wentworth Dilke,Thomas Kibble Hervey,William Hepworth Dixon,Norman MacColl,Vernon Horace Rendall,John Middleton Murry,1893
