Barbour, 2022-03-31 Western Buddhist travel narratives are autobiographical accounts of a journey to a Buddhist culture Dozens of such narratives have since the 1970s describe treks in Tibet periods of residence in a Zen monastery pilgrimages to Buddhist sites and teachers and other Asian odysseys The best known of these works is Peter Matthiessen's The Snow Leopard further reflections emerge from thirty writers including John Blofeld Jan Van de Wetering Thomas Merton Oliver Statler Robert Thurman Gretel Ehrlich and Bill Porter The Buddhist concept of no self helps these authors interpret certain pivotal experiences of unselfing and is also a catalyst that provokes and enables such events The writers' spiritual memoirs describe how their journeys brought about a new understanding of Buddhist enlightenment and so transformed their lives Showing how travel can elicit self transformation this book is a compelling exploration of the journeys and religious changes of both individuals and Buddhism itself **The Psychologisation of Eastern Spiritual Traditions** Elliot

Cohen, 2021-09-30 This essential book critically examines the various ways in which Eastern spiritual traditions have been typically stripped of their spiritual roots content and context to be more readily assimilated into secular Western frames of Psychology Beginning with the colonial histories of Empire the author draws from the 1960s Counterculture and the subsequent romanticising and idealising of the East Cohen explores how Hindu Buddhist and Daoist traditions have been gradually transformed into forms of Psychology Psychotherapy and Self Help undergoing processes of modernisation and secularisation until their respective cosmologies had been successfully reinterpreted and reimagined An important component of this psychologisation is the accompanying commodification of Eastern spiritual practices including the mass marketing of mindfulness and meditation as part of the burgeoning well being industry Also presenting emerging voices of resistance from within Eastern spiritual traditions the book ends with a chapter on Transpersonal Psychology showing a path for how to gradually move away from colonisation and towards collaboration Engaging with the mindfulness movement and other practices assimilated by Western culture this is fascinating reading for students and academics in psychology philosophy and religious studies as well as mindfulness practitioners **The Bardo Thodol (Tibetan Book of the Dead)**

William Woodville Rockhill,1894 **The Heart of the World** Ian Baker,2006-05-02 The myth of Shangri la originates in Tibetan Buddhist beliefs in beyul or hidden lands sacred sanctuaries that reveal themselves to devout pilgrims and in times of crisis The more remote and inaccessible the beyul the vaster its reputed qualities Ancient Tibetan prophecies declare that the greatest of all hidden lands lies at the heart of the forbidding Tsangpo Gorge deep in the Himalayas and veiled by a colossal waterfall Nineteenth century accounts of this fabled waterfall inspired a series of ill fated European expeditions that ended prematurely in 1925 when the intrepid British plant collector Frank Kingdon Ward penetrated all but a five mile section of the Tsangpo s innermost gorge and declared that the falls were no more than a religious myth and a romance of geography The heart of the Tsangpo Gorge remained a blank spot on the map of world exploration until world class climber and Buddhist scholar Ian Baker delved into the legends Whatever cryptic Tibetan scrolls or past explorers had said about the Tsangpo s innermost gorge Baker determined could be verified only by exploring the uncharted five mile gap After several years of encountering sheer cliffs maelstroms of impassable white water and dense leech infested jungles on the last of a series of extraordinary expeditions Baker and his National Geographic sponsored team reached the depths of the Tsangpo Gorge They made news worldwide by finding there a 108 foot high waterfall the legendary grail of Western explorers and Tibetan seekers alike The Heart of the World is one of the most captivating stories of exploration and discovery in recent memory an extraordinary journey to one of the wildest and most inaccessible places on earth and a pilgrimage to the heart of the Tibetan Buddhist faith The Abode of Snow.
