**Frontier Tibet** Stéphane Gros,2025-10-01 Frontier Tibet

Patterns of Change in the Sino Tibetan Borderlands addresses a historical sequence that sealed the future of the Sino Tibetan borderlands It considers how starting in the late nineteenth century imperial formations and emerging nation states developed competing schemes of integration and debated about where the border between China and Tibet should be It also ponders the ways in which this border is internalised today creating within the People s Republic of China a space that retains some characteristics of a historical frontier The region of eastern Tibet called Kham the focus of this volume is a productive lens through which processes of place making and frontier dynamics can be analysed Using historical records and ethnography the authors challenge purely externalist approaches to convey a sense of Kham s own centrality and the agency of the actors involved They contribute to a history from below that is relevant to the history of China and Tibet and of comparative value for borderland studies

Tenzin Dolma,2020-01-01 In the sixty years since Tibet was incorporated into the People s Republic of China Tibetans within its border and in exile have never stopped advocating for their sovereignty Although the Chinese government has constantly put their effort to systematically destroy Tibetan identity and Chinese propagandist misconstrued interpretation of Tibet s sovereignty which is evident in their insidious approach in restricting the basic human rights in Tibet such as the freedom of speech and religion Tibetan determination vividly outweighs China s approach by depicting success stories of not giving up around the world with more supporters and scholars to contribute to this struggle for independence
