**The Golden Yoke** Rebecca Redwood French, 2019-06-07 The Golden Yoke is a remarkable achievement It is the first elaboration of the legal cultural and ideological dimensions of precommunist Tibetan jurisprudence a unique legal system that maintains its secularism within a thoroughly Buddhist setting Layer by layer Rebecca Redwood French reconstructs the daily operation of law in Tibet before the Chinese invasion in 1959 In the Tibetans own words French identifies their courts symbols and personnel and traces the procedures for petitioning and filing documents There are stories here from judges legal conciliators and lay people about murder property disputes and divorce French shows that Tibetan law is deeply embedded in its Buddhist culture and that the system evolved not from the rules and judgments but from what people actually do and say In what amounts to a fully developed cosmology she describes the cultural foundation that informs the system myths notions of time and conflux inner morality language patterns rituals use of space symbols and concepts Based on extensive readings of Tibetan legal documents and codes interviews with Tibetan scholars and the reminiscences of Tibetans at home and in exile this generously illustrated elegantly written work is a model of outstanding research French combines the talents of a legal anthropologist with those of a former law practitioner to develop a new field of study that has implications for other judicial systems including our own

**The Art of Written Forms** Donald M. Anderson, 1969 ART OF WRITTEN FORMS is the first book since the early years of the twentieth century to treat in one comprehensive volume both the historical and practical aspects of letters and writing systems Drawing together information and illustrations from historic texts and modern research much of it rare and inaccessible the book surveys the history theory materials and techniques of calligraphy typography and

constructed letters      **Drawn and Written in Stone** John Vincent Bellezza, 2020 Drawn and Written in Stone explores the religious history of the highest part of the Tibetan Plateau through its rock art and inscriptions. It is focused on facsimiles of ritual and ceremonial monuments carved and painted on stone surfaces and rock inscriptions in the Tibetan language, vital archaeological and historical materials for appraising the development of religion in Tibet ca 100 BCE to 1400 CE. By probing the complexion of figures and letters in stone, this work considers how early cult traditions contributed to the establishment of Tibetan Buddhism and a rival faith known as Yungdrung Bon. Outside of the Indian cultural context, relatively little has been written about the historical antecedents of these popular Tibetan religions for a want of sources. This monograph helps remedy this large gap in Tibetan studies by drawing upon the author's surveys of rock art and rock inscriptions conducted in upmost Tibet between 1995 and 2013.
