**Historical Romance Fiction** Lisa Fletcher, 2016-04-22 The first book length study of romance novels to focus on issues of sexuality rather than gender Historical Romance Fiction moves the ongoing debate about the value and appeal of heterosexual romance onto new ground testing the claims of cutting edge critical theorists on everything from popular classics by Georgette Heyer to recent bodice rippers to historical fiction by John Fowles and A S Byatt Beginning with her nomination of I love you as the romance novel s defining speech act Lisa Fletcher engages closely with speech act theory and recent studies of performativity The range of texts serves to illustrate Fletcher s definition of historical romance as a fictional mode dependent on the force and familiarity of the speech act I love you and permits

Fletcher to provide a detailed account of the genre's history and development in both its popular and literary manifestations. Written from a feminist and anti-homophobic perspective, Fletcher's subtle arguments about the romantic speech act serve to demonstrate the genre's dependence on repetition. Romance can only quote and the shaky ground on which the romance's heterosexual premise rests. Her exploration of the subgenre of cross-dressing novels is especially revealing in this regard. With its deft mix of theoretical arguments and suggestive close readings, Fletcher's book will appeal to specialists in genre, speech act and performativity theory and gender studies.

*The American Historical Romance* George Dekker, 1990-05-03 This book traces the tradition of American historical fiction from its origins in the early nineteenth century to the eve of World War II. It examines the historical novel's connections with Enlightenment and Romantic theories of history with the rise of literary regionalism with the ambitions of Romantic writers to revive the epic and romance with changing conceptions of gender roles and with the author's troubled responses to the great revolutionary and imperialistic conflicts of the modern era. However, though inevitably much concerned with the theory of genre and with the specific contents of the genre of historical romance, Professor Dekker devotes most of his book to new readings of major texts by James Fenimore Cooper, Nathaniel Hawthorne, Herman Melville, Mark Twain, Allen Tate, Edith Wharton, Willa Cather and William Faulkner as well as to the Briton whose name was synonymous with the genre for most of the nineteenth century, Sir Walter Scott. *The American Historical Romance* is the richest, most fully meditated and most rewarding yet written by this author. It is the most important book on the relations of British and American fiction to come out for many years. No devotee of the American novel will ignore it. *The Times Literary Supplement*

*Unsettling Sexuality* Jeremy Chow, Shelby Johnson, 2025 *Unsettling Sexuality* brings queer, trans and asexual lenses to bear on the long eighteenth century. Drawing from Middle Eastern and Asian studies, African American studies and Native American and Indigenous studies, the authors pioneer intersectional readings of European, transatlantic and global eighteenth-century archives that unsettle traditional ways of approaching the field to welcome sexuality as something that can resist rigidity.
