Tipu Sultans Search For Legitimacy Islam And Kingship In A Hindu Domain:

Tipu Sultan's Search for Legitimacy Kate Brittlebank,1997 Focusing upon the methods adopted by Tipu Sultan to establish his legitimacy as a parvenu ruler this revisionary study takes an innovative approach to the analysis of kingship in eighteenth century south India The Indian Princes and their States Barbara N. Ramusack,2004-01-08 Although the princes of India have been caricatured as oriental despots and British stooges Barbara Ramusack's study argues that the British did not create the princes On the contrary many were consummate politicians who exercised considerable degrees of autonomy until the disintegration of the princely states after independence Ramusack's synthesis has a broad temporal span tracing the evolution of the Indian kings from their pre colonial origins to their roles as clients in the British colonial system The book breaks ground in its integration of political and economic developments in the major princely states with the shifting relationships between the princes and the British It represents a major contribution both to British imperial history in its analysis of the theory and practice of indirect rule and to modern South Asian history as a portrait of the princes as politicians and patrons of the arts **From Fascination to Folly: A Troubled History of Collecting since the 1600s**

Charles Merewether,2024-12-25 This book explores the interplay of Western European exploration and trade with collecting cabinets of curiosities and museums and with the role of booty and plunder in the building of empires from ca 1600 until the end of the 19th century The book focuses principally on the Dutch English Spanish French and Italian at different times of their colonial power over the course of these 300 years The achievements of exploration and trade provide the basis for these countries and both the state and individuals to build collections and museums This involved governments to legitimize the pursuit of booty and subsequently looting whether by themselves members of the ruling class or privateers Throughout much of this period there those who stood up and challenged such practices passing laws to criminalize curtail or contain these activities By the late 18th century these parallel but disparate activities converged It was era of Napoleon and his imperial ambitions that drew these disparate activities together with his support of intellectual inquiry alongside military plunder and collecting This served as a symbol of imperial power of the French empire that alongside England and Italy exploited the wealth and riches of Egypt India and China Hajj across Empires Rishad Choudhury,2024-02-08 Rishad Choudhury

presents a new history of imperial connections across the Indian Ocean from 1739 to 1857 a period that witnessed the decline and collapse of Mughal rule and the consolidation of British colonialism in South Asia In this highly original and comprehensive study he reveals how the hajj pilgrimage significantly transformed Muslim political culture and colonial attitudes towards it creating new ideas of religion and rule Examining links between the Indian Subcontinent and the Ottoman Middle East through multilingual sources from first hand accounts to administrative archives of hajj Choudhury uncovers a striking array of pilgrims who leveraged their experiences and exchanges abroad to address the decline and decentralization of an Islamic old regime at home Hajjis crucially mediated the birth of modern Muslim political traditions

around South Asia Hajj across Empires argues they did so by channeling inter imperial crosscurrents to successive surges of imperial revolution and regional regime change *Waves Across the South* Sujit Sivasundaram,2021-05-07 This is a story of tides and coastlines winds and waves islands and beaches It is also a retelling of indigenous creativity agency and resistance in the face of unprecedented globalization and violence Waves Across the South shifts the narrative of the Age of Revolutions and the origins of the British Empire it foregrounds a vast southern zone that ranges from the Arabian Sea and southwest Indian Ocean across to the Bay of Bengal and onward to the South Pacific and the Tasman Sea As the empires of the Dutch French and especially the British reached across these regions they faced a surge of revolutionary sentiment Long standing venerable Eurasian empires established patterns of trade and commerce and indigenous practice also served as a context for this transformative era In addition to bringing long ignored people and events to the fore Sujit Sivasundaram opens the door to new and necessary conversations about environmental history the consequences of historical violence the legacies of empire the extraction of resources and the indigenous futures that Western imperialism cut short The result is nothing less than a bold new way of understanding our global past one that also helps us think afresh about our shared future White
