Mawere,2017-02-10 In view of the resilience of Africas underdevelopment what do Africans make of their determined aspirations for development The continent of Africa has constantly drawn global attention most especially for both human and natural evils Underdevelopment it appears is one of the most eminent threatening evils It has plunged and promises to maintain the majority of Africa in abject poverty insecurity and vulnerability What perpetuates the ghost and gory of underdevelopment in Africa despite a proliferation of development rhetoric and initiatives How do ordinary Africans react to repeated talk and claims of development with little evidence of transformation for the better in their material circumstances This book interrogates the tenacity of underdevelopment amid calls for Africa to rise from its slumber and reclaim its position in global affairs as the mother continent of humankind It contributes to the ongoing debates on why Africa remains trapped in the clutch of underdevelopment many decades after the purported end of colonialism The book comes at a critical time in human history a time when the talk on Africas under development is louder due to the ravages of economic downturns and dysfunctional conflicts It poses a challenge to development practitioners civil society activists statesmen economists political scientists and theorists to rethink and reconsider their role as technocrats experts and ambassadors of positive change in Africa and the world beyond     The African Book Publishing Record ,2008     *African Studies Review* ,2008     **The**
