**Visual Protest, Viral Images, and Virtual Participation** Nicole A. Schneider, 2025-06-30 This interdisciplinary study sees press photographs of the BLM Movement in the US as agents for Black liberation. Close reading both the images and theoretical considerations on Blackness photography and the often intangible articulations of racism in today's society. The book focuses on the work the photographs do for the movement as they politically garner attention and create discursive places historically unsettle seemingly fixed narratives about the African American past and virtually establish room for digital activist debate. Based on Azoulay's event of photography and Rancière's politics of aesthetics it builds the theory of an attentive reading of photography and addresses the larger frameworks of photography as event in anti-racist considerations. In their political aesthetic and performative dimensions these photographs negotiate the current matter of Black lives in the United States and articulate ontological dimensions of Blackness as political struggle and affirmative position. They become mobile and material discursive places that lift the protested debates into wider fields of consideration and visibility complicating notions of society politics and interaction.

**The End of White Christian America** Robert P. Jones, 2017-07-04 The founder and CEO of Public Religion Research Institute PRRI and columnist for the Atlantic describes how white Protestant Christians have declined in influence and power since the 1990s and explores the effect this has had on America. **Ambitious Like a Mother** Lara Bazelon, 2022-04-19 In this captivating and radical look at work life balance Lara Bazelon reframes our understanding of working women and shows how prioritizing your career benefits mothers, kids and society at large. In this singular cultural moment mothers have unparalleled opportunities to succeed at work while continuing to face the same societal impediments that held back our mothers and grandmothers. We still encounter entrenched gender bias in the workplace and are expected to shoulder the lion's share of labor and burdens at home while being made to feel as if we're never doing enough. All the while we're told that the perfect work life balance is possible if only we try hard enough to achieve it. It's time to change the conversation about work life and balance. Work and life are inextricably intimately intertwined. We need to celebrate what we do give our children, even and especially in moments of imbalance rather than apologizing for what we don't. In this way we can model for our children how we use our talents to help others and raise awareness about the issues closest to our hearts. We can embrace the personal fulfillment and financial independence that pursuing meaningful work can bring as a way of showing our children how to live happy, purpose-driven lives. Bazelon argues not only that we can but that we should. Being ambitious at work and being a good mother to our children are not at odds; these qualities mutually reinforce each other. Backed up by research and filled with personal stories from Bazelon's life as well as that of her mother and the many other women she interviewed across the cultural and financial spectrum, *Ambitious Like a Mother* is an anthem, a beacon for all to recognize and celebrate the pioneering women who reject the false idols of the Selfless Mother and Work Life Balance and a call to embrace your own ambitions and model your
