Time And Philosophy A History Of Continental Thought:

Time and Philosophy John McCumber, 2011-01-01 In *Time and Philosophy* John McCumber presents a detailed survey of continental thought through a historical account of its key texts. The common theme taken up in each text is how philosophical thought should respond to time.

The Routledge Companion to Humanism and Literature Michael Bryson, 2022-03-30 The *Routledge Companion to Humanism and Literature* provides readers with a comprehensive reassessment of the value of humanism in an intellectual landscape. Offering contributions by leading international scholars, this volume seeks to define literature as a core expressive form and an essential constitutive element of newly reformulated understandings of humanism. While the value of humanism has recently been dominated by anti-humanist and post-humanist perspectives which focused on the flaws and exclusions of previous definitions of humanism, this volume examines the human problems, dilemmas, fears, and aspirations expressed in literature as a fundamentally humanist art form and activity. Divided into three overarching categories, this companion will explore the histories, developments, debates, and contestations of humanism in literature and deliver fresh definitions of the new humanism for the humanities. This focus aims to transcend the boundaries of a world in which human life is all too often defined in terms of restrictions, political, economic, theological, intellectual, and lived in terms of obedience, conformity, isolation, and fear. The *Routledge Companion to Humanism and Literature* will provide invaluable support to humanities students and scholars alike seeking to navigate the relevance and resilience of humanism across world cultures and literatures.

The Crisis in Continental Philosophy Robert Piercey, 2009-05-01 Continental philosophy has traditionally seen philosophy as historical, claiming that there are no new beginnings in the discipline and that we must revisit the work of earlier thinkers again and again. Yet continental philosophers rarely argue explicitly for their view of philosophy's past, and the discussions of the topic that exist tend to be riddled with confusion. Here Robert Piercey asks why and explores what the continental tradition must do to come to terms with this crisis. Piercey traces the confusion about history back to Hegel, who he argues sends a mixed message about historical thinking, one that is later adopted by Heidegger and then passed on to his successors. In addition to telling the story of this crisis, Piercey offers an account of historical thinking that does not lead to the difficulties that currently plague the continental tradition. The result is a highly original look at the development of continental thought and the nature of philosophy's historical turn.

Reading Continental Philosophy and the History of Thought Christian Lotz, Antonio Calcagno, 2023-11-03 This book frames the mission of the *Continental Philosophy and History of Thought* series at Lexington Books. International leading scholars contribute essays that explore and redefine the relationship between received arguments in contemporary Continental philosophy and various influential figures and arguments in the history of thought. By bringing Continental philosophy and the histories of thought into dialogue, editors Christian Lotz and Antonio Calcagno broaden the standard canon of what is considered Continental philosophy by including important yet understudied figures.

and arguments in the tradition the chapters also deepen and contextualize significant movements and debate in the field by showing their rich historical underpinnings thereby establishing new viewpoints in specific constituent subfields of philosophy Reading Continental Philosophy and the History of Thought shows the growing richness of Continental philosophy via unexplored rethinking of the history of thought The contributors expand Continental philosophy with and through the recovery of important historical developments figures and lines of thought
