Times Edge The Chronos :

Life on the Edge Brother John of Taizé, 2017-10-26 Is the Christian faith something that can peacefully exist alongside all the other aspects of an ordinary human life or does it by its very nature turn that life into something else The author of this book a member of a monastic community for over forty years obviously has a vested interest in the answer But even for believers caught up in the day to day life of society work and family the question is an important one at least if they are seeking a measure of consistency in the life they are living And does not the very fact that the question of the importance and urgency of faith needs to be asked witness to the eclipse of an eschatological outlook among Christians at any rate in the mainstream Churches Could this oversight not explain why an eschatological understanding of faith one which sees it as a radical world changing reality has been forced to take refuge often deformed to the point of being unrecognizable in small fanatical groups on the margins of the Christian world The Time-Loop Love Algorithm: A Paradox of the Heart Jamie Stephenson,

Space and Time in Thai-Lao Relations Thanachate Wisaijorn,2022-06-07

Wisaijorn explores how the concepts of space and temporality in traditional geopolitics have influenced the understanding of the Thai Lao border since Laos became independent in 1954 Arguing that a state centric conceptualisation of the Thailand Laos border falls into both a territorial and temporal trap Wisaijorn contests that privileging a theoretical border silences the voices of people on the ground In doing so he expands the concept of a temporal trap with the addition of a temporal dimension analysing how the state claims a monopoly not only on a geography but also a history Rooted in orientalism colonialism and the expediencies of the Cold War the border operates in the interest of elites and ignores the lived reality of peoples on the ground By bringing these voices back into the discussion Wisaijorn presents a more complex framework which reveals a human dimension missing not only from this particular case but more broadly from the conceptions of borders within International Relations theory A fascinating case study for scholars with an interest in mainland Southeast Asia which also makes a valuable theoretical contribution to International relations discourse
