### **Recognition in the Age of Social Media** Bruno

Campanella,2023-10-30 The desire to be recognized is a basic human trait In contemporary society social media platforms play a key role in defining how processes of recognition take shape To post to like or to comment have become daily practices of expressing individual recognition On the one hand social media platforms make it easier for individuals to be visible and to be recognized on the other hand they control the structure of these dynamics This timely and original book reflects on processes of recognition on social media platforms Revisiting traditional discussions on recognition theory Bruno Campanella investigates how the field of media and communication has used the concept and poses new questions raised by the omnipresence of social media He argues that existing work does not fully explore the impact of platforms on contemporary processes of recognition Individuals must learn new skills to make themselves visible online but how to achieve this changes as a consequence of the role played by platforms what is seen depends on decisions taken by their algorithms which impacts how individuals and social groups are valued in society Recognition in the Age of Social Media is a key contribution to the field and a must read for students and scholars of media and communication sociology and politics

*The Influence of User-Generated Content on Brand Trust and Consumer Purchase Intentions* Uju Ogu, 2025-09-24 Essay aus dem Jahr 2019 im Fachbereich BWL Customer Relationship Management CRM Sprache Deutsch Abstract This study investigates the multifaceted relationship between User Generated Content (UGC) brand trust and consumer purchase intentions. In an era dominated by digital communication traditional marketing messages are increasingly challenged by the authenticity and influence of content created by consumers themselves. This paper employs a comprehensive meta-analysis of existing academic literature, industry reports, and publicly available data to synthesize key findings and identify overarching trends. The research aims to answer the following questions: 1. How does UGC impact the level of trust consumers place in a brand? 2. What is the relationship between brand trust and subsequent purchase intentions in the context of UGC? 3. What factors moderate the effect of UGC on consumer behavior? The findings suggest a strong positive correlation where UGC significantly enhances brand trust, which in turn leads to a higher likelihood of purchase. However, the study also reveals that the impact of UGC is moderated by factors such as the type of content (e.g. reviews vs. social media posts), the perceived authenticity of the creator, and the product category. This research contributes to the marketing management literature by providing a synthesized view of the current state of knowledge and offering practical implications for marketers seeking to leverage the power of UGC.
