## We People Here Nahuatl Accounts Of The Conquest Of Mexico **Repertorium Columbianum**:

**Historia de la Conquista de México** James Lockhart, 1993 Historians are concerned today that the Spaniards early accounts of their first experiences with the Indians in the Americas should be balanced with accounts from the Indian perspective. We People Here reflects that concern bringing together important and revealing documents written in the Nahuatl language in sixteenth century Mexico. James Lockhart's superior translation combines contemporary English with the most up to date nuanced understanding of Nahuatl grammar and meaning. The foremost Nahuatl conquest account is Book Twelve of the Florentine Codex. In this monumental work Fray Bernardino de Sahagún commissioned Nahuas to collect and record in their own language accounts of the conquest of Mexico. He then added a parallel Spanish account that is part summary part elaboration of the Nahuatl. Now for the first time the Nahuatl and Spanish texts are together in one volume with en face English translations and reproductions of the copious illustrations from the Codex. Also included are five other Nahua conquest texts. Lockhart's introduction discusses each one individually placing the narratives in context.

A Companion to Mexican History and Culture William H. Beezley, 2011-03-16 A Companion to Mexican History and Culture features 40 essays contributed by international scholars that incorporate ethnic, gender, environmental, and cultural studies to reveal a richer portrait of the Mexican experience from the earliest peoples to the present. Features the latest scholarship on Mexican history and culture by an array of international scholars. Essays are separated into sections on the four major chronological eras. Discusses recent historical interpretations with critical historiographical sources and is enriched by cultural analysis, ethnic and gender studies, and visual evidence. The first volume to incorporate a discussion of popular music in political analysis. This book is the recipient of the 2013 Michael C. Meyer Special Recognition Award from the Rocky Mountain Conference on Latin American Studies.

The Conquest All Over Again Susan Schroeder, 2011-03-23 The Spaniards typically portrayed the conquest and fall of Mexico Tenochtitlan as Armageddon while native people in colonial Mesoamerica continued to write and paint their histories and lives often without any mention of the foreigners in their midst.

This title addresses key aspects of indigenous perspectives of the conquest.

**Portraying the Aztec Past** Angela Herren Rajagopalan, 2018-12-12 During the period of Aztec expansion and empire (ca. 1325-1525) scribes of high social standing used a pictographic writing system to paint hundreds of manuscripts detailing myriad aspects of life including historical, calendric, and religious information. Following the Spanish conquest, native and mestizo tlacuiloque (artist-scribes) of the sixteenth century continued to use pre-Hispanic pictorial writing systems to record information about native culture. Three of these manuscripts, Codex Boturini, Codex Azcatitlan, and Codex Aubin, document the origin and migration of the Mexica people, one of several indigenous groups often collectively referred to as Aztec. In *Portraying the Aztec Past*, Angela Herren Rajagopalan offers a thorough study of these closely linked manuscripts, articulating their narrative and formal connections and examining differences in format, style, and communicative strategies. Through analyses that focus on the materials, stylistic traits, and

and narrative qualities of the codices she places these annals in their historical and social contexts Her work adds to our understanding of the production and function of these manuscripts and explores how Mexica identity is presented and framed after the conquest Mary Magdalene, La Malinche, and the Ethics of Interpretation Jennifer Vija Pietz,2022-11-08 By comparing the intersecting histories of interpretation of Mary Magdalene a first century disciple of Jesus and La Malinche a sixteenth century Mesoamerican woman enslaved by the Spanish conquistadores Jennifer Vija Pietz critically evaluates the use of past lives to address contemporaneous concerns She demonstrates how the earliest sources portray each woman as an agent in the foundation of a new community Magdalene s proclamation of Jesus s resurrection helped form the first Christian community while La Malinche s role as interpreter between Spanish and native people during the Conquest helped establish modern Mexico Pietz then argues that over time various interpreters turn these real women into malleable icons that they use to negotiate changing conceptions of communal identity and norms Strikingly popular portraits develop of both women as archetypal whores who represent transgression portraits that some women have experienced as harmful Although other interpreters present contrary portraits of Magdalene and La Malinche as admirable emblems of female empowerment Pietz argues that the tendency to turn real people into icons risks producing stereotypes that can obscure past lives and negatively affect people in the present In response she posits strategies for developing historically plausible and ethically responsible interpretations of people of the past Empires of the Atlantic World J. H. Elliott,2006-01-01 This epic history compares the empires built by Spain and Britain in the Americas from Columbus s arrival in the New World to the end of Spanish colonial rule in the early nineteenth century J H Elliott one of the most distinguished and versatile historians working today offers us history on a grand scale contrasting the worlds built by Britain and by Spain on the ruins of the civilizations they encountered and destroyed in North and South America Elliott identifies and explains both the similarities and differences in the two empires processes of colonization the character of their colonial societies their distinctive styles of imperial government and the independence movements mounted against them Based on wide reading in the history of the two great Atlantic civilizations the book sets the Spanish and British colonial empires in the context of their own times and offers us insights into aspects of this dual history that still influence the Americas Latin American Indian Literatures Journal ,1996

**The Florentine Codex** Jeanette Favrot Peterson,Kevin Terraciano,2019-09-10 Honorable Mention 2021 LASA Mexico Humanities Book Prize Latin American Studies Association Mexico Section In the sixteenth century the Franciscan friar Bernardino de Sahag n and a team of indigenous grammarians scribes and painters completed decades of work on an extraordinary encyclopedic project titled General History of the Things of New Spain known as the Florentine Codex 1575 1577 Now housed in the Biblioteca Medicea Laurenziana in Florence and bound in three lavishly illustrated volumes the codex is a remarkable product of cultural exchange in the early Americas In this edited volume experts from multiple disciplines analyze the manuscript s bilingual texts and more than 2 000 painted images and offer fascinating new insights on

its twelve books The contributors examine the three texts of the codex the original Nahuatl its translation into Spanish and its painted images Together these constitute complementary as well as conflicting voices of an extended dialogue that occurred in and around Mexico City The volume chapters address a range of subjects from Nahua sacred beliefs moral discourse and natural history to the Florentine artists models and the manuscript s reception in Europe The Florentine Codex ultimately yields new perspectives on the Nahua world several decades after the fall of the Aztec empire **The Hispanic American Historical Review** ,1996 Includes Bibliographical section **Quincentennial of the discovery of America, encounter of two worlds** ,1993 **Historie Della Vita E Dei Fatti Dell'Ammiraglio Don Cristoforo Colombo**

Fernando Colón,2004 The series offers contemporary sources relating to Columbus four voyages and the inter penetration of the hitherto separate worlds that resulted from them The texts are presented in the original language for specialists but also in English translation for students and scholars in related fields This text was first published in 1571 in Venice having been translated from the Spanish original and immediately became the starting point for all future biographies of Columbus and of historical reconstructions of the first phase of the Spanish conquest of the New World It covers his whole life exalts the goodness and power of Spain and criticizes the Spanish monarchs for denying him and his descendants their legitimate rights Distributed by the David Brown Book Company Annotation 2004 Book News Inc Portland OR booknews.com

Ronald H. Fritze,2002 The huge expansion in trade and the acquisition of vast empires that characterize this period of European history would set the pattern for at least the next two centuries Fritze begins with a portrait of medieval Europe its economy its geography and the developments in naval architecture that made the great voyages possible Next he narrates the travels of Henry the Navigator Columbus da Gama and Cabot He contrasts the establishment of the Portuguese spice empires in Asia with the simultaneous rise of the Mogul Empire and he details as well the opening up of both South and North America The culmination of these exploration efforts was the successful circumnavigation of the earth by Magellan and the opening of viable Pacific trade routes A concluding chapter details the impact of European expansion its effect on the European worldview and economy and challenges to the Spanish and Portuguese from the Dutch English and French Fully illustrated this study captures the excitement of the era while at the same time providing the latest scholarship in an accessible form **Selections from Peter Martyr Pietro Martire d' Anghiera**,1998 The first decade or volume of Peter Martyr s reports on the New World published in 1511 as *De Orbe Novo* was in fact the first European history of America For twenty years after Columbus s voyages of discovery Martyr s letters in various versions served as Europe s primary printed source for the Caribbean and the emerging continent of South America Martyr a wise observer and great storyteller is one of the major informants on the voyages of Columbus His work also includes the whole of the first decade of the *De Orbe Novo* and the fourth book of Martyr s third decade which tells of Columbus s voyage to Panama A new and accurate translation

parallels the Latin text while Eatough's extensive commentary contributes significantly to the remarkably detailed complex and varied series of narratives Italian Reports on America, 1493-1522 Geoffrey Symcox, 2001 In a volume which opens with reports of information contained in the famous Santangel letter and closes with the announcements of Cortes's conquests in Mexico and Magellan's circumnavigation historian Geoffrey Symcox presents in chronological order a collection of original texts accompanied by English translations detailing the reactions of Italian diplomats, merchants and the papacy to the news of Columbus's explorations in America and subsequent events down to the conquest of Mexico. These documents form part of the process by which the news of the lands and people of the Americas spread to the courts, chanceries and educated public of the Italian states and reveal that news of the Americas, their flora and fauna, their exotic inhabitants, their fabled wealth spread swiftly to a public hungry for information. But the collection also suggests that at least until the mid-sixteenth century the achievements of Columbus and his successors remained of secondary concern to statesmen and citizens seeking to survive as their stronger neighbours fought for hegemony in the Italian peninsula and in the Mediterranean.

**Oviedo on Columbus** Gonzalo Fernández de Oviedo y Valdés, Jesús Carrillo, 2000 These are the collected writings of Gonzalo Fernández de Oviedo who saw Columbus as both the initiator of a new scientific era and agent of imperial expansion and was the first natural historian to attempt a systematic description of the flora and fauna of the Americas.

Anthropological Linguistics, 1995 **The Aztec Image of Self and Society** Miguel León Portilla, 1992 **The Oxford Encyclopedia of Mesoamerican Cultures** David Carrasco, 2001 Presenting the most up to date coverage on our knowledge of this society, The Oxford Encyclopedia of Mesoamerican Cultures is the first comprehensive and comparative reference source to chronicle Pre-Hispanic, Colonial and modern Mesoamerica. Written for a wide audience, it is an invaluable reference for interested lay persons, students, teachers and scholars in such fields as art, archaeology, religious studies, anthropology, Latin American culture and the history of the region. Organized alphabetically, the articles range from 500-word biographies to 7,000-word entries on geography and history to the legacy of the arts, writings, architecture and religious rituals. An extensive network of cross references, blind entries and annotated bibliographies guide the reader to related entries within the Encyclopedia and provide the groundwork for further research. **The Nahua Newsletter**, 1986
