## We Modern Library Classics:

We Yevgeny Zamyatin,2006-07-11 Zamyatin's intuitive grasp of the irrational side of totalitarianism human sacrifice cruelty as an end in itself makes We superior to Huxley's Brave New World George Orwell Translated by Natasha Randall Foreword by Bruce Sterling Written in 1921 We is set in the One State where all live for the collective good and individual freedom does not exist The novel takes the form of the diary of mathematician D 503 who to his shock experiences the most disruptive emotion imaginable love At once satirical and sobering and now available in a powerful new translation We is both a rediscovered classic and a work of tremendous relevance to our own times **This Is a Classic** Regina

Galasso,2023-01-26 This Is a Classic illuminates the overlooked networks that contribute to the making of literary classics through the voices of multiple translators without whom writers would have a difficult time reaching a global audience It presents the work of some of today's most accomplished literary translators who translate classics into English or who work closely with translation in the US context and magnifies translators' knowledge skills creativity and relationships with the literary texts they translate the authors whose works they translate and the translations they make The volume presents translators' expertise and insight on how classics get defined according to language pairs and contexts It advocates for careful attention to the role of translation and translators in reading choices and practices especially regarding literary classics

**The Library Association Record** ,1902    **From the Edge** Allison E. Fagan,2016-07-14 Chicana o literature frequently depicts characters who exist in a vulnerable liminal space living on the border between Mexican and American identities and sometimes pushed to the edge by authorities who seek to restrict their freedom As this groundbreaking new study reveals the books themselves have occupied similarly precarious positions as Chicana o literature has struggled for economic viability and visibility on the margins of the American publishing industry while Chicana o writers have grappled with editorial practices that compromise their creative autonomy From the Edge reveals the tangled textual histories behind some of the most cherished works in the Chicana o literary canon tracing the negotiations between authors editors and publishers that determined how these books appeared in print Allison Fagan demonstrates how the texts surrounding the authors words from editorial prefaces to Spanish language glossaries from cover illustrations to reviewers blurbs have crucially shaped the reception of Chicana o literature To gain an even richer perspective on the politics of print she ultimately explores one more border space studying the marks and remarks that readers have left in the margins of these books From the Edge vividly demonstrates that to comprehend fully the roles that ethnicity language class and gender play within Chicana o literature we must understand the material conditions that governed the production publication and reception of these works By teaching us how to read the borders of the text it demonstrates how we might perceive and preserve the faint traces of those on the margins
