Weapons Of Mass Persuasion Strategic Communication To Combat Violent Extremism:

Weapons of Mass Persuasion Steven R. Corman, Angela Trethewey, H. Lloyd Goodall, 2008 These collected essays apply human communication concepts and theories to the communication problems encountered by nations, communities, and individuals to move beyond critique of the failed U.S. communication campaigns and strategies in the war on terror.

Violent Extremism Online Anne Aly, Stuart Macdonald, Lee Jarvis, Thomas Chen, 2016-05-05 This book explores the interface between terrorism and the internet and presents contemporary approaches to understanding violent extremism online. The volume focuses on four issues in particular: terrorist propaganda on the internet, radicalisation and the internet, counter campaigns and approaches to disrupting internet radicalisation, and approaches to researching and understanding the role of the internet in radicalisation. The book brings together expertise from a wide range of disciplines and geographical regions, including Europe, the US, Canada, and Australia. These contributions explore the various roles played by the Internet in radicalisation, the reasons why terroristic propaganda may or may not influence others to engage in violence, the role of political conflict in online radicalisation, and the future of research into terrorism and the internet. By covering this broad range of topics, the volume will make an important and timely addition to the current collections on a growing and international subject. This book will be of much interest to students and researchers of cyber security, internet politics, terrorism studies, media and communications studies, and International Relations.

Jihadist Terrorist Use of Strategic Communication Management Techniques Carsten Bockstette, 2010-11 Since the symmetrical global East-West conflict was decided in favor of the West, numerous asymmetrical conflicts have erupted around the globe. Jihadist terrorism has spread beyond the borders of the regions in which it had its origin and has reached a global dimension. Research and analysis of the root causes and underlying conditions, motivators and enablers of terrorism, including the agitation propaganda of jihadist terrorists, are vital to shaping appropriate countermeasures to the threat from Islamic terrorism. This paper looks at the jihadist use of strategic communication management techniques. The mass media and especially the Internet have become the key enablers and the main strategic communication assets for terrorists and have ensured them a favorable communication asymmetry.

Strategic Communication Anthony Dudo, LeeAnn Kahlor, 2016-07-01 The focus of this book is Strategic Communication. Communication can be defined as strategic if its development and/or dissemination is driven by an expected outcome. These outcomes can be attitudinal, behavioral, persuasive, or knowledge related; they can lead to change or engagement, or they can miss their mark entirely. In looking at strategic communication, one is not limited to a specific context or discipline. Many of the scholars in the volume are generating research that covers strategic communication in ways that are meaningful across fields. This volume collects the work and ideas of scholars who cover the spectrum of strategic communication, from source to message to audience to channel to effects. Strategic Communication offers new perspectives across contexts and is rooted firmly in the rich research traditions of persuasion and media effects. Spanning

multiple disciplines and written to appeal to a large audience this book will be found in the hands of researchers graduate students and students doing interdisciplinary coursework **Storytelling Against Extremism** Linda Schlegel,2025-05-23 Counter and alternative narrative CAN campaigns have become a widely used tool in contemporary efforts to prevent and or counter violent extremism P CVE However one element is conspicuously absent from the discourse There is little engagement with CANs as narratives and neither CAN theory nor practice are based on existing research findings on narrative persuasion processes This is a crucial gap in the current CAN approach Not situating CANs within the broader discourse on narrative persuasion and drawing from the insights narrative persuasion studies offer significantly weakens the theoretical foundation practical development storytelling quality and analysis of CAN campaigns This book addresses this research gap and transfers concepts theories and insights from narrative persuasion and storytelling research to the context of P CVE narrative campaigns The author demonstrates that the often criticized CAN approach can be improved significantly by understanding CANs as narrative persuasion campaigns and grounding them in existing research detailing how to tell entertaining and persuasive stories *Proceedings of the 12th European Conference on Information Warfare and Security*

Lloyd Goodall,2008 Challenging Extremist Views on Social Media Jan-Jaap van Eerten,Bertjan Doosje,2019-07-23 This book is a timely and significant examination of the role of counter messaging via social media as a potential means of preventing or countering radicalization to violent extremism In recent years extremist groups have developed increasingly sophisticated online communication strategies to spread their propaganda and promote their cause enabling messages to be spread more rapidly and effectively Counter messaging has been promoted as one of the most important measures to neutralize online radicalizing influences and is intended to undermine the appeal of messages disseminated by violent extremist groups While many such initiatives have been launched by Western governments civil society actors and private companies there are many questions regarding their efficacy Focusing predominantly on efforts countering Salafi Jihadi extremism this book examines how feasible it is to prevent or counter radicalization and violent

extremism with counter messaging efforts. It investigates important principles to consider when devising such a program. The authors provide both a comprehensive theoretical overview and a review of the available literature as well as policy recommendations for governments and the role they can play in counter narrative efforts. As this is the first book to critically examine the possibilities and pitfalls of using counter messaging to prevent radicalization or stimulate de radicalization, it is essential reading for policy makers and professionals dealing with this issue as well as researchers in the field.

Weapons of Mass Persuasion Paul Rutherford, 2004-12-15 With nearly sixty percent of Americans initially against a pre-emptive war without sanction from the United Nations and even higher anti-war numbers in most other nations of the world, the 2003 war against Iraq quickly became an enormous public relations challenge for the George W. Bush administration. The subject of Weapons of Mass Persuasion is a war in which American patriotism became so mired in commercial jingoism that the demarcations between entertainment and political conduct disappeared completely. In this engaging and disturbing book, Paul Rutherford shows how the marketing campaign for the war against Iraq was constructed and carried out. He argues that not only was the campaign a new chapter in the presentation of real-time war as pop culture, but that its deeper implications have now come to constitute part of the history of modern democracy. Situating the war against Iraq within an existing tradition of war as narrative spectacle and more broadly commodity, Rutherford offers a brief overview of the history of civic advertising and propaganda, then examines in detail the different dimensions of three weeks of war presented to North Americans as it became a branded conflict processed and cleansed to appeal to the well-established tastes of veteran consumers of popular culture. Including incisive analyses of visual material, speeches, editorial cartoons, and media political commentary but particularly news reports of such sound-bite events as the bombing of Baghdad, the toppling of the Hussein statue, and the rescue of captured soldier Private Jessica Lynch, as well as extensive polling data from around the world and interviews with the actual consumers of war, Weapons of Mass Persuasion chronicles the making of a Hollywood war fast-paced and heroic, pitting the forces of good against the forces of evil to achieve a triumphant, sanitized, and commodified outcome. Not since Naomi Klein's *No Logo* have the gods of marketing and the art of commercialism been so thoroughly disrobed.

[Policy Brief: A Lifestory Strategic Communications Framework: the Case on Preventing and Countering Violent Extremism and Strengthening Resilience](#) Arlinda Rrustemi, 2020 This policy brief discusses how to design strategic communications campaigns to prevent and counter violent extremism using lifestory narratives. It focuses on the most effective choices to make when producing and disseminating lifestories in regard to audience, goals, media, and typology. It recommends treating the whole society as the audience, aiming to reduce tensions in the community by addressing extremist and stigmatizing attitudes, sharing the lifestories off and online, and carefully selecting the narrative type of the stories shown.
