Western Disturbances - An Indian Meteorological Perspective A.P. Dimri, Amulya Chevuturi, 2016-02-09 This book examines the meteorological phenomenon known as Western Disturbances WDs and traces their influence on the Indian subcontinent. It fully details the unique characteristics and dynamics of these disturbances which produce large scale instabilities in the atmosphere over northern India due to the orographic influence of the Himalayas. The authors first present a definition of the phenomenon and then go on to detail their structure and migration. Topics include dynamics, energetics and thermodynamics, modelling studies, land use and land cover interactions and WDs in the changing climate. In addition, coverage outlines how WDs interact with and influence other weather systems throughout the four seasons of Indian climate: winter, pre monsoon, monsoon and post monsoon. It places special emphasis on wintertime dynamics since WDs significantly contribute to the precipitation in India during this time. The authors explain why this period should be termed Indian winter monsoon and differentiate it from the northeast monsoon which so far is the prevalent term used in the region's meteorological parlance. Complete with detailed illustrations and case studies, this monograph will help researchers and students gain a fundamental understanding of these important storms. This knowledge is essential not only for short term and seasonal hydrometeorological forecasting but also for the assessment of regional climate change and its impacts.

Lindsay, Paul Edelstein, Hiroyuki Yamaguchi, Nicholas Cianciotto, Fumito Maruyama, Masahisa Watarai, Torahiko Okubo, Kenta Watanabe, 2024-02-09 The articles collated for this issue will largely be based on presentations at the 10th International Legionella Conference in Yokohama, Chair Professor Kazuhiro Tateda, September 20-24, 2022, which, because of the impact of Legionella disease with unknown pathogenicity and unexplained ecology, likewise the need for new rapid test innovations, will be held entirely as a hybrid on site and online conference.

Traditional and Indigenous Knowledge for the Modern Era David R. Katerere, Wendy Applequist, Oluwaseyi M. Aboyade, Chamunorwa Togo, 2019-09-05 While there is talk of the Fourth Industrial Revolution, old and new challenges bedevil the world: climate change, nutrition and health, poverty being at the top of the list. In seeking solutions to these and other problems which afflict the modern era, it is worthwhile to look into our collective past, to the traditions and knowledges of our ancestors. Such knowledge continues to exist in many parts of the world, though now marginalized by homogenous Eurocentric ontology and epistemology. This book presents a compilation of reviews, case studies and primary research.

attempting to locate the utility of traditional and Indigenous Knowledges in an increasingly complex world It assembles chapter authors from across the world to tackle topics ranging from traditional knowledge based innovations and commercialization traditional medicine systems as practiced around the world ethnoveterinary practices and food innovation to traditional governance and leadership systems among others This book is an important resource for policymakers scholars and researchers of cultural studies leadership governance ethnobotany anthropology plant genetic resources and technology innovation and readers interested in the history of knowledge and culture as well as cultural activists and political scientists Features Unique combination of social science and anthropological aspects with natural science perspectives Includes summaries aimed at policymakers to immediately see what would be relevant to their work Combines case studies illuminating important lessons learned with reviews and primary data Multidisciplinary in the scope of the topics tackled and assemblage of contributors Global footprint with contributions from Africa Europe North America Asia and the West Indies David R Katerere Department of Pharmaceutical Sciences Tshwane University of Technology South Africa Wendy Applequist William L Brown Center Missouri Botanical Garden St Louis Missouri Oluwaseyi M Aboyade Department of Pharmaceutical Sciences Tshwane University of Technology South Africa and Nutritica SA The Innovation Hub Pretoria South Africa Chamunorwa Togo The Innovation Hub Pretoria South Africa
