TEACHER EDUCATION, SECOND EDITION MOHAN, RADHA, 2019-08-01 Teacher education is at the base of all educational systems To make it effective we need an education system that equips the teacher trainees with the necessary skills to perform their tasks effectively in the classroom This book discusses how to train teachers improve teacher education programmes and impart quality education The book now in its second edition emphasizes development of skills in teachers keeping in mind the rapid use of technology and changes in education policies procedures and provisions Each chapter has been carefully revised as per the latest NCTE norms and standards recommended by Justice Verma Commission This well organized book is primarily intended for the postgraduate students of Education M A Education and M Ed Besides teacher trainees enrolled in B Ed and Diploma in teaching programmes teacher educators distance education school based administrators and policymakers will also find the book useful **KEY FEATURES** Deals with necessary pedagogical skills and competencies to make the teachers professionally competent Provides a comparative study of teacher education of a number of countries to put things in the right perspective Makes extensive use of flowcharts and diagrams to enable the readers to understand the topics discussed with great ease **TARGET AUDIENCE** M A Education M Ed Teacher trainees Web 2.0 technologies in education. A brief study Serafeim A. Triantafyllou, 2020-10-06 Essay from the year 2014 in the subject Didactics E Learning grade 10 University of Macedonia language English abstract This study investigates the second generation of the World Wide Web called Web 2 0 The revolution of Web 2 0 over Web 1 0 was that it allowed Internet users not to be passive recipients who simply read the digital content of a web page but enabled them to add digital content share information and collaborate online The blast of Web 2 0 is therefore largely based on the electronic sharing of knowledge and information In this paper the basic features of Web 2 0 its basic services functions and tools will be firstly described Next concepts such as social networking services and social networks will be analyzed and the application of Web 2 0 in education as well as the benefits it can bring will be studied In conclusion a summary of the possibilities of Web 2 0 is made and the advantages disadvantages and its role in the educational process are presented through a critical point of view One of the major differences between Web 2 0 and the traditional World Wide Web is the greater collaboration between Internet users and other users such as digital service providers and businesses While Web 1 0 was software organized around pages technologies and businesses Web 2 0 was organized around ordinary people and services In the Web 1 0 era internet users had the ability to read the digital content of a web page but could not create their own since the only person who could update the web page content was its webmaster In other words we would say that Web 1 0 was not oriented towards the creation of digital content by internet users **Technological Developments in Networking, Education and Automation** Khaled Elleithy, Tarek Sobh, Magued Iskander, Vikram Kapila, Mohammad A.
