Web Fluent The Faster Easier Way To Build Your Web Business:

Web Fluent Nelson Bates,Lana Bates,Sterling Bates,2012-01-26 The book is meant to be a fast read with tips you can use immediately It s purpose is to teach you how to build a Web business that earns 5 000 to 10 000 a month or more The book stems from my seventeen years as an Entrepreneur building Web businesses that work The book shows how I ve built my businesses how I set them up to only take 10 hours a week to run and how I run my marketing campaigns so that the majority of them are successful What is Web Fluent Being fluent in Web business means you understand the fundamental truths about how to create something genuine as well as earn money with it If you re Web Fluent you know that 50 connected Facebook Fans are more powerful than 5 000 casual Fans or even 50 000 casual Twitter followers You know to focus your efforts on one important goal that you have compelling passion for and happily ignore the rest You know that starting something brilliant doesn t mean you need a brilliant idea you just need a good idea to start and then you can turn it into something brilliant along the way You know that spending more than an hour researching keywords for your brand is a waste of time You know it s better to do one amazing blog post a month than ten good ones If you re Web Fluent you know that blogging is one of your best friends both for connecting with others and focusing your thoughts You know that if you re an entrepreneur you need to learn the blogging platform yourself or a web design program to start your business because if you try to hire it out you ll drain your bank account before your business has a chance to succeed You also know it s better to connect with the people you already have rather than to try and build a bigger list You know that having 1 000 True Fans is plenty enough to create a rich life in all its meanings You know that by the time you start your idea until the time it starts to achieve the success you dreamed of will likely be two years You know that on some projects you will need to be bold or you ll be boring You also know the exhilarating feeling of satisfaction that comes with providing something genuine to others and making money along the way and that it s OK to make a lot of money Are you Web Fluent If not let s get you there as fast as possible Webs of Influence Nathalie Nahai,2017-02-09 With the majority of commercial transaction now happening online companies of all shapes and sizes face an unprecedented level of competition to win over and retain new business In this second edition of Webs of Influence Nathalie Nahai brings together the latest insights from the world of psychology neuroscience and behavioural economics to explain the underlying dynamics and motivations behind consumer behaviour This book will show you how to apply specific principles to improve your marketing products and websites enabling you to engage with your customers in a more meaningful way Applying the latest in thinking in psychology sociology business design and more this book is essential reading for anyone who works on the web Jamie Bartlett Author of The Dark Net Nathalie Nahai is the most intelligent contemporary writer on technology matters This new edition is even better and will turn every reader into an expert a phenomenal book Dr Thomas Chamorro Premuzic Professor of Business Psychology at University College London and Columbia University CEO of Hogan Assessments *Start Your Own E-Business* Lynie
