Welcome Home Vietnam:

Welcome Home Vietnam Chuck Sanders, 2010-11 Death is often welcome for soldiers who returned from Vietnam because it appears to be the only means of peace within. Knowing that each day could and in all probability will be his last, the soldier's thought process becomes distorted and his animalistic instincts take over and allow for total abandonment of inhibitions. These soldiers answered the nation's call and they paid the price for the freedoms we as a nation hold dear. They are also the ones who continue to pay the price for the combat experience and that part of us that died in country. These men suffer from PTSD Post Traumatic Stress Disorder and this is their story.

Welcome Home Jeff West, 2020-01-25 *Welcome Home The Army and My Vietnam* is a series of documentary style stories of a Veteran's experiences in the Army both stateside and during his combat tour in Vietnam. From boot camp to his return home and living with the aftermath of his experiences, this is a very personal perspective on the Army, the war, and our society as seen through the eyes of a soldier. *Welcome Home* offers an historically accurate account from someone who served during a time when our country did not support our Veterans or appreciate their service. Most of these stories have never been told. Bits and pieces now and then have been shared with family and friends but never entirely and never in detail. The author's two years in the Army shaped the rest of his life and he decided to share his experiences for other Veterans who have never told their stories. This book was written for them, his family, friends, and for himself. The book's message is one of hope. It is never too late, no matter how long it has been or how difficult the road, there is always hope. Every individual needs to take the necessary steps to change and make things better for themselves. Fortunately, there is a myriad of resources available today for Veterans of all conflicts. Society is now supportive and our government is providing improved care at all levels for our Veterans as are many private organizations. Personal note from the author: I encourage all Vietnam Veterans to write about their experiences. Those days and times are part of our lives and should not be forgotten. Unfortunately, many of us are dying without sharing these stories. My hope is that any Veteran who reads this book would be inspired to write about his or her own stories for their families, future generations, and themselves. The exercise brings clarity and closure to that chapter of our lives.

Welcome Home, Brother Michel Robertson, 2019-12-08 *Welcome Home Brother* is a collection of the personal memoirs of 31 veterans of the Vietnam War. Told by members of the Navy, Marines, Air Force, and Army, these accounts depict combat and day to day life in country as well as the Vietnam War veterans' experiences as they returned home to a country divided by the war.

Warriors Remembered Albert J. Nahas, 2010-11 *Warriors Remembered* is one veteran's journey to capture the recognition that proudly stands throughout our country for veterans of the Vietnam War. The emotion of these memorials is evident in every story. The memorials are as much for the living as the dead. They reveal the spirit of those who survived and offer comfort for families affected by the war. They helped to heal a nation torn by a most divisive war. The book can be a travel guide for your own journey to see these compelling memorials. For those who love a veteran, it is a catalyst to connect and

open a conversation about past service still wrapped in silence For veterans it is an overdue Welcome Home **Places of Commemoration** Joachim Wolschke-Bulmahn, 2001 Everyone is occupied consciously or unconsciously with identity one's origin and the question of one's place in humankind and society of the past present and future Identity and memory are not stable and objective things but representations or constructions of reality related to a particular interest such as class gender of power relations Identity is problematic without history and without the commemoration of history and of course such remembrance may distort historical events and facts When dealing with gardens a substantial part of our physical environment there are always unspoken questions of identity Places of Commemoration examines commemorative sites of different character including gardens landscapes memorials cemeteries and sites of former Nazi concentration camps detailing the ideas behind the creation of memorials and monuments and the struggles over the narratives they present
