## **Welfare State Universalism And Diversity:**

Welfare State, Universalism and Diversity Anneli Anttonen, 2012-01-01 This book is a most timely academic intervention. The concept of universalism is central to social policy and welfare state development yet it is rarely explored with such attention to its time and place specificities as in this book. Nordic and British authors investigate the different dimensions and meanings of universalism and the challenges it has faced. Buffeted by markets and choice on the one side and diversity on the other, can universalism survive? To find out, read on. Fiona Williams, University of Leeds, UK. Universalism in social policy is politically challenged and normatively contested. This book examines how the principle of universalism can be understood and how it has been put into practice in various national contexts. Universalism is contrasted with the idea of diversity, which has gained strength as a result of growing affluent middle classes and of multiculturalism in highly developed welfare states. The book deals with varieties of universalism and inspires a rethinking of the normative basis of the welfare state. Stein Kuhnle, University of Bergen, Norway, and Hertie School of Governance, Berlin, Germany. **Welfare State Universalism and Diversity** is a thought provoking book dealing with key ideas, values and principles of social policies and asking what exactly is meant by universal benefits and policies. Is the time of post war universalism over? Are universalism and diversity contradictory policy and theory framings? Well known scholars from different countries and fields of expertise provide a historically informative and comprehensive view on the making of universal social policies. Universalism is defined and implemented differently in the British and Scandinavian social policies. Service universalism is different from universalism in pensions. The book underlines the multiple and transformative nature of universalism and the challenge of diversity. There certainly is need for a greater diversity in meeting citizens' needs. Yet universalism remains a principle essential for planning and implementing sustainable and legitimate policies in times characterized by complex interdependences and contradictory political aims. This impressive book is an attempt to untangle the multiple meanings of universalism and clarify the concept's relevance to contemporary policy debates. It will prove invaluable for students, researchers and practitioners in social policy, public policy, social administration, social welfare, social history, social work, sociology and political sciences. Policymakers and administrators involved with social and public policies, social services, social welfare and social work will also find this book groundbreaking.

**The Global Rise of Social Cash Transfers** Lutz Leisering, 2018-12-06 The Universal Declaration of Human Rights 1948 proclaimed the equality of all human beings in dignity and rights. The right to social security, however, has been taken more seriously only since the 2000s through calls for Social Security for All and Leaving no one behind. The book investigates a major response: social cash transfers to the poor. The idea of simply giving money to the poor had been rejected by all major development organizations but since the early 2000s social cash transfers have mushroomed in the global South and on agendas of international organizations. How come? What programmes have emerged in which countries? How inclusive are the programmes? What models have international organizations devised? Based on unique quantitative and qualitative data

and on newly created concepts and indicators the book takes stock of all identifiable cash transfers in all Southern countries and of the views of all major international organizations The volume argues that cash transfers reflect broader changes new understandings of development of human rights of global risks of the social responsibility of governments and of universalism Social cash transfers have turned the poor from objects of charity into rights holders and agents of their own lives and of development A repertoire of cash transfers has evolved that has enhanced social citizenship but is limited by weak political commitments The book also contributes to a general theory of social policy in development contexts through a constructivist sociological approach that complements the dominant approaches from welfare economics and political economy and includes a theory of social assistance

**Excluding Diversity Through Intersectional Borderings** Laura Merla, Sarah Murru, Giacomo Orsini, Tanja Vuckovic Juros, 2024-08-02 This open access book critically examines how discourses and policies target and exclude migrants and their families in Europe and North America along racial gender and sexuality lines and how these exclusions are experienced and resisted Building on the influential notion of intersectional borderings it delves deep into how these discourses converge and diverge highlighting the underlying normative constructs of family gender and sexuality First it examines how radical right and conservative political movements perpetuate exclusionary practices and how they become institutionalized in migration welfare and family policies Second it examines the dynamic responses they provoke both resistance and reinforcement among those affected in their everyday lives Bringing together studies from political and social sciences it offers a vital contribution to the expanding field of migrant family governance and exclusion and is essential for understanding the complex processes of exclusion and the movements that challenge and sustain them It expands academic discussions on populism and the politics of exclusion by linking them to the politicization of intimacy and family life With diverse case studies from Europe North and Central America it appeals to students academics and policymakers informing future mobilizations against discriminatory and exclusionary tendencies in politics and society

**Research Handbook on Human Rights and Poverty** Martha F. Davis, Morten Kjaerum, Amanda Lyons, 2021-03-26 This important Research Handbook explores the nexus between human rights poverty and inequality as a critical lens for understanding and addressing key challenges of the coming decades including the objectives set out in the Sustainable Development Goals The Research Handbook starts from the premise that poverty is not solely an issue of minimum income and explores the profound ways that deprivation and distributive inequality of power and capability relate to economic social cultural civil and political rights

Convergence, Persistence and Diversity in Male and Female Careers Daniela Grunow, 2006 Little comparative knowledge exists on how the radical transformations that constitute the late 20th century's era of globalization have affected gender relations and their particular structural manifestation on the labor market thereby neglecting a core element of the changes and problems currently underway This book analyses how converging tendencies in the life courses and employment careers of men and women interfere with developments of increasing diversity and instability both within and between sexes as economies move from industrial to global Using the shifting welfare regimes of West Germany and Denmark as illustrative evidence of how national context genders the risks and chances associated with globalization and increasing employment flexibility this study provides a timely comprehensive longitudinal analysis of the gendered career consequences of recent political and economic change Historical Perspectives on Memory Anne Ollila, 1999 Historians have a highly

contradictory attitude towards memory It has usually been categorised as an unreliable source in historical research However memory is also understood as one of the key concepts in history In this book ten distinguished scholars explore a different perspective **Revue française des affaires sociales**, 2018-10 *Cultural Diversity and the Law* Marie-Claire Foblets, Jean-François Gaudreault-DesBiens, Alison Dundes Renteln, 2010 **Social Policy** Michael Lavalette, Alan Pratt, 2001

The second edition of this textbook has been completely revised to provide an up to date and accessible introduction to social policy The contributors cover both the major theoretical perspectives and the core issues for social policy helping the reader to develop a full and critical understanding of the discipline **Faith on Trial** David E. Guinn, 2002-10-02 Faith on Trial

explains how the Supreme Court's reliance on procedural liberalism hampers its ability to adequately address the reality of religion as a pluralistic social institution *Welfare, Ideology, and Need* Martin Hewitt, 1992 To find out more information about Rowman Littlefield titles please visit us at [www.rowmanlittlefield.com](http://www.rowmanlittlefield.com) *European Welfare States* Sven Bislev, 1997

*Investigating Welfare State Change* Jochen Clasen, Nico A. Siegel, 2007 Studies from thematic seminar held in May 2005 at the University of Stirling and then from a panel organized at the 2005 ESPAnet European Social Policy Analysis network conference in Fribourg Switzerland with the addition of results and subsequent discussions on the subject Comparing Welfare States Allan Cochrane, John Clarke, 1993-10-05 Contains case studies of Hong Kong Germany Sweden and Ireland

*Welfare and the State* Lois Bryson, 1992 a significant contribution to the 1990s debates on the kind of society to be struggled for into the 21st century Australian Feminist Studies The Journal of Developing Areas, 1998 Democracy and Cultural Diversity Michael O'Neill, Dennis Austin, 2000 The nation state is now faced with unprecedented pressures

Global shifts a medley of powerful forces in contemporary political economy military affairs and international security technology and communications cultural changes ecological challenges and so on require policy solutions at levels of governance beyond traditional states At the same time and in part as a response to these wider forces and the uncertainty they bring in their wake established national polities are challenged too by the rise of politicized sub national ethnic religious linguistic and cultural movements This phenomenon presents a challenge to the extant political systems and the elites who manage their affairs Moreover it offers a particular challenge to democratic states Inasmuch as these polities celebrate the virtues of self determination and encourage pluralism as a matter of course flourishing and assertive movements demanding in some degree the re negotiation of the national bargain present a serious challenge to the continuity of historic national projects At the same time democracy is particularly well equipped both as a discourse and method of practising politics for accommodating cultural diversity This book contains an overview of this challenge to the art of democratic government and case studies from every region of the world The contributions are by acknowledged international experts on how democratic states have confronted the task of managing cultural diversity and accommodating perceived differences of identity short of political break up      *Human Rights, Diversity, and Social Justice* Jill Cottrell, Yash P. Ghai, 2008
