We Are Everywhere The Irresistible Rise Of Global Anti Capitalism:

We Are Everywhere Notes From Nowhere,2003-10-17 We Are Everywhere is a whirlwind collection of writings images and ideas for direct action by people on the frontlines of the global anticapitalist movement This is a movement of untold stories because those from below are not those who get to write history even though we are the ones making it We Are Everywhere wrenches our history from the grasp of the powerful and returns it to the streets fields and neighbourhoods where it was made *Global Justice and the Politics of Information* Sky Croeser,2014-09-19 The global social justice movement attempts to build a more equitable democratic and environmentally sustainable world However this book argues that actors involved need to recognise knowledge including scientific and technological systems to a greater extent than they presently do The rise of the Occupy movement the Arab Spring and the Wikileaks controversy has demonstrated that the internet can play an important role in helping people to organise against unjust systems While governments may be able to control individual activists they can no longer control the flow of information However the existence of new information and communications technologies does not in itself guarantee that peoples movements will win out against authoritarian governments or the power of economic elites Drawing on extensive interviews and fieldwork this book illustrates the importance of contributions from local movements around the world to the struggle for global justice Including detailed case studies on opposition to genetically modified crops in the south of India and the digital liberties movement this book is vital reading for anyone trying to understand the changing relationship between science technology and progressive movements around the world This book will be of interest to students and scholars of International Politics Social movements Global Justice and Internet politics *Green Cultural Criminology* Avi Brisman,Nigel South,2014-06-05 Over the last two decades green criminology has emerged as a unique area of study bringing together criminologists and sociologists from a wide range of research backgrounds and varying theoretical orientations It spans the micro to the macro from individual level environmental crimes and victimization to business corporate violations and state transgressions There have been few attempts however to explicitly or implicitly integrate cultural criminology into green criminology or vice versa This book moves towards articulating a green cultural criminological perspective Brisman and South examine existing overlapping research and offer a platform to support future excursions by green criminologists into cultural criminology s concern with media images and representations consumerism and consumption and resistance At the same time they offer an invitation to cultural criminologists to adopt a green view of the consumption landscape and the growth and depictions of environmental harms Green Cultural Criminology is aimed at students academics criminologists and sociologists with an interest in green criminology and cultural criminology two of the most exciting new areas in criminology today Global Activism Ruth Reitan,2007-01-24 This comprehensive study traces the transnationalization of activist networks analyzing their changing compositions and characters and examining the roles played by the World Social Forum in this process Comparing four of the

largest global networks targeting the neoliberal triumvirate of the World Bank the IMF and the World Trade Organization the Jubilee anti debt campaigners Via Campesina peasant farmers Our World Is Not For Sale and the anarchistic Peoples Global Action Written by a scholar activist the book highlights that despite their diversity these collective actors follow a similar globalizing path and that networks in which solidarity is based on a shared identity perceived as threatened by neoliberal change are gaining strength Social forums are depicted as a fertile ground to strengthen networks and a common ground for cooperative action among them but also a battleground over the future of the forum process the global anti neoliberal struggle and other possible worlds in the making Global Activism will appeal to students and scholars interested in globalization international relations IPE and social movements

The Struggle for the World Charles Lindholm, José Pedro Zúquete, 2010-03-09 This controversial book establishes fundamental similarities between anti globalization aurora movements offering a new understanding of the sources and significance of resistance to the spiritual conditions of the modern world
