Weavers Of Wisdom Women Mystics Of The Twentieth Century:

Weavers of Wisdom Anne Bancroft, 1989 Traditionally most gurus philosophers and religious leaders have been men But in this fascinating and thought provoking book Bancroft provides the feminine approach to mysticism by examining the methods and teachings of fifteen women who have developed their own insights into what the author calls the truth that goes beyond the ordinary *Using the Greek Goddesses to Create a Well-Lived Life for Women* Martha Beck, 2019-01-15 This book brings to life the meaning of the stories of the seven goddesses of Greek mythology Each goddess represents a sacred calling a way of life whose goal is to live for the sake of something greater than oneself Athena is the goddess of wisdom and justice Artemis is the woods woman who protects the natural world Demeter is the goddess of the fertility of the earth and the birth and nurturing of children Hera is the wife of Zeus the king who dedicates her life to creating a high quality of public life through nurturing various community activities Aphrodite is the goddess of creativity Persephone is the victim who was raped by Hades and abducted to the underworld where she punishes those who victimized others while alive and Hestia is the contemplative she who reflects upon human affairs and sees how all the parts fit a larger whole The book will allow readers to recognize themselves and their own sacred passions in these stories Once recognized women can educate themselves and each other They can use the wisdom represented in Greek mythology to create meaningful and complete lives in the context of a culture that is still dominated by men and their passions In this way women will be liberated to do everything they can to leave a better world behind for their children grandchildren and future generations **Daily Life of Women** Colleen Boyett, H. Micheal Tarver, Mildred Diane Gleason, 2020-12-07 Indispensable for the student or researcher studying women s history this book draws upon a wide array of cultural settings and time periods in which women displayed agency by carrying out their daily economic familial artistic and religious obligations Since record keeping began history has been written by a relatively few elite men Insights into women s history are left to be gleaned by scholars who undertake careful readings of ancient literature examine archaeological artifacts and study popular culture such as folktales musical traditions and art For some historical periods and geographic regions this is the only way to develop some sense of what daily life might have been like for women in a particular time and place This reference explores the daily life of women across civilizations The work is organized in sections on different civilizations from around the world arranged chronologically Within each society the encyclopedia highlights the roles of women within five broad thematic categories the arts economics and work family and community life recreation and social customs and religious life Included are numerous sidebars containing additional information document excerpts images and suggestions for further reading *Closing the Gap* Allerd Stikker, 2002 Today s patriarchal societies have their roots in antiquity a time when matrilineal societies gradually gave way to ancient civilizations in which men were granted more and more importance and power and women were made not only subordinate but also gradually separated from realms of the male In *Closing the Gap* Allerd Stikker argues that the male

female duality we still perceive has resulted in a loss of coherence and integrity for all people and that only the unity and interdependence of the sexes can preserve a sustainable human society on our planet Autumn Gospel Kathleen Fischer, Kathleen R. Fischer, 1995 With her characteristic honesty gentleness and insight Kathleen Fischer explores the spiritual dimensions of women's middle and later years as she weaves together stories experiences and research from a variety of traditions and cultures She begins with a discussion of how societal images of older women constrict their sense of worth and their possibilities The author then suggests ways in which older women can embrace new visions of themselves She proceeds to explore the place of transitions the inner life contemplation the body mourning remembering caregiving and intergenerational connections as each relates to women's spirituality in later life At each chapter's end Dr Fischer offers rituals prayers and meditations that mark the passages of the second half of life **The Arkana Dictionary of New Perspectives** Stuart Holroyd, 1989 **Divining Woman** Jane Flower, 2024-04-30 Divining Woman is directed to both the academic for research praxis and general reader interested in female history It takes the reader on a historical journey from the rise of patriarchy and its grand narratives that defined the place of women in western culture and which still resonate today At the same time is the lesser but extremely interesting history of a contemporary woman as she navigates the place of one woman in today's world and how the reader might evaluate their own place as a creative force in reclaiming her voice culture and lineage today The author takes a systemic approach in her research that introduces a different history of certain women throughout time with their specific characteristics and skills as well as their impactful actions It is a reclamation of female culture and a newfound history of female genealogy within a framework that covers the female spiritual in Celtic Christian Buddhist and the secular arts The in depth research historical and cultural interplay literary quests and myths promote a compelling case of women's fight against subjugation and exclusion This is both academic research and feminist storytelling intertwined with historical events that provide the reader with a creative insight into the topic On one hand academic research and analysis style gives an overview of patriarchy and its effects past and present and on the other The first person narration personal anecdotes and storytelling help bring Divining Woman to life Content is thus enhanced and complemented by these two styles This thesis places the reader in a prime position to launch the young academic on the road to finding solutions outside the mainstream schools of thought because it is honest personable and thoroughly academically researched Women, Passion & Celibacy Sally Cline, 1993 The author of Just Desserts Women and Food issues a startling but compelling call for single women to embrace their freedom and redefine and celebrate a non genital sexuality Essential reading for any woman who has ever felt that her body is not her own New Books on Women and Feminism , 1991 *Journal of Religious Studies* , 1990 **Older Women's Experience of Spirituality** Cheryl Demerath Learn, 1996 Originating as a Ph D dissertation for the U of Colorado in 1993 this study revised and with a new preface and index investigates the older women's experience of spirituality and spiritual caring through in depth interviews with eight women
