Wege Ins Ungewisse Kulturgeschichte 1500 18:

The World of the Tavern Beat Kümin, B. Ann Tlusty, 2017-07-05 The subject of drink received a great deal of attention from early modern Europeans Preachers physicians authorities artists and travellers all addressed it from a range of different perspectives At the same time inns taverns and alehouses served as multifunctional centres in towns and villages throughout Europe This combination resulted in a wealth of sources both institutional and cultural which are only now beginning to be explored This anthology features new research on public houses in England Russia and the German lands In a series of general thematic and regional studies contributors engage with broader debates in early modern history shedding light on such key issues as consumption travel and communication state building confessional identity fiscal practice gender and household relations and the use of public spaces The result is a volume that should appeal to anybody with an interest in early modern cultural history

The Franco-Prussian War Karine Varley, 2024-06-14 The Franco Prussian War of 1870 71 has traditionally been seen as a limited conflict between French and German forces This edited volume challenges this view and shows that it was a war of ideas values and perceptions which transformed the political diplomatic and military culture across Europe Based on interdisciplinary research the book suggests that the war raised new questions about power the nation violence and notions of civilization which brought about a decisive shift in how warfare was experienced and perceived While the Franco Prussian War may have begun as a traditional dynastic struggle it became a modern war and an important precursor to the First World War in its use of new weaponry and industrialized warfare At the same time the development of humanitarian movements and international law on the conduct of war meant that the fighting was subjected to unprecedented scrutiny while new technologies accelerated the pace at which narratives about the war were constructed and consumed This volume will appeal to scholars in the fields of war studies international relations and diplomacy and intellectual and cultural history It will also be a useful addition to undergraduate and postgraduate courses on nineteenth century European history and cultural studies

Healing and Harm Erica Heinsen-Roach, Stephen A. Lazer, Benjamin Marschke, Jared Poley, 2024-03-01 Professor Mary Lindemann inspired several generations of historical researchers in early modern history and culture She has served as president of the German Studies Association and the American Historical Association and is the author of pathbreaking scholarly work in the history of medicine urban space diplomacy and of women In honor of her scholarship service and dedication *Healing and Harm* gathers a group of leading scholars that includes her students contemporaries and those who have been inspired by her work to continue Lindemann's prolific arguments and observations on early modern central European and German history and culture

Die Herausbildung moderner Strukturen in Gesellschaft und Staat der Frühen Neuzeit Dagmar Klose, 2010 Im Mittelpunkt des fünften Bandes der Reihe *Perspektiven historischen Denkens und Lernens* steht eine Epoche des Umbruchs und des Überganges die Frühe Neuzeit Traditionelle historische Begriffe werden auf den Prüfstand neuerer Forschungsansätze gestellt Der französische Revolution

werden neue Aspekte beigelegt wie die Mentalitätsgeschichte Auch die Amerikanische Revolution nimmt einen gebührenden Platz ein Ganz neue Facetten der Geschichte enthält das abschließende Kapitel zur Kulturgeschichte Reiz des Unterirdischen. White, 2005 From the late seventeenth century into the eighteenth century critics and authors in Germany defended the novel; indeed it depicted vice and immorality but only with the intention of exhorting the reader to avoid such dangers to the soul This book examines outstanding novels of the period from the Thirty Years War to the Vormärz, mostly written with this real or apparent moral aim and evaluates them as documents of social history The author finds that concepts of truth and plausibility are different in the early modern period Initial and closing chapters deal with French novels showing how approaches to society differ across national cultures Russlandtagebuch 1683 Engelbert Kaempfer, 2003 Forschungen zur brandenburgischen und preussischen Geschichte Reinhold Carl Bernhard Alexander Koser, Friedrich W.
