Pragmatic Nonviolence: Working toward a Better World Andrew Fitz-Gibbon, 2020-12-29 Written in dialogue format Andrew Fitz-Gibbon's *Pragmatic Nonviolence* argues that nonviolence is the best hope for a better world. Human violence in all its forms—physical, psychological, and systemic—cultural is perhaps the greatest obstacle to well-being in personal and community life. Nonviolence as a practice that whenever possible seeks the well-being of the Other by refusing to use violence to solve problems and by acting according to loving kindness is the best antidote to human violence. By drawing on the philosophy of nonviolence, the American pragmatist tradition, and recent empirical research, *Pragmatic Nonviolence* demonstrates that rather than being merely theoretical, nonviolence is a truly practical approach toward personal and community well-being.

Nonviolent Perspectives Andrew Fitz-Gibbon, 2025-02-04 This book is a compilation of essays addressing the central issue of humanity: interpersonal violence and, more importantly, nonviolence as its antidote. The essays trace the author's journey from early pacifist convictions influenced by personal experiences with violence to a nuanced understanding of nonviolence rooted in ethics, love, spirituality, and critical theory. Spanning over two decades, the writings explore various dimensions of nonviolence, from philosophical arguments and historical analysis to practical applications in parenting, political resistance, and care ethics. The book brings together previously published works that have been instrumental in shaping the author's thinking, making them accessible for scholars, students, and anyone interested in nonviolence. With reflections on the works of Murdoch, MacIntyre, Gandhi, and others, it offers a comprehensive examination of nonviolence as both a personal practice and a social imperative.

The Routledge Handbook of Pacifism and Nonviolence Andrew Fiala, 2018-02-02 Interest in pacifism, an idea with a long history in philosophical thought and in several religious traditions, is growing. *The Routledge Handbook of Pacifism and Nonviolence* is the first comprehensive reference designed to introduce newcomers and researchers to the many varieties of pacifism and nonviolence, to their history and philosophy, and to pacifism's most serious critiques. The volume offers 32 brand-new chapters from the world's leading experts across a diverse range of fields who together provide a broad discussion of pacifism and nonviolence in connection with virtue ethics, capital punishment, animal ethics, ecology, queer theory, and feminism, among other areas. This Handbook is divided into four sections: 1. Historical and Tradition-Specific Considerations; 2. Conceptual and Moral Considerations; 3. Social and Political Considerations; and 4. Applications. It concludes with an Afterword by James Lawson, one of the icons of the nonviolent American Civil Rights movement. The text will be invaluable to scholars and students as well as to activists and general readers interested in peace, nonviolence, and critical perspectives on war and violence.

Corporal Punishment, Religion, and United States Public Schools Jane Hall Fitz-Gibbon, 2017-06-27 This book examines corporal punishment in United States public schools. The practice, which is still legal in nineteen states, affects approximately a quarter million children each year. Justification for the use of physical punishment is often based on religious texts. Rather than simply

disregarding the importance of religious commitment this volume presents an alternative faith based response The book suggests the hermeneutical triad of sacred text tradition and reason as an acceptable approach for those seeking to be faithful to religious text and tradition The Parliamentary Debates (Hansard).
